

Welcome Address

On
Inauguration of
Central Skills Lab
16.02.2021

By
Dr. Mridu Dudeja,
Dean HIMSR &
HAHCH

Welcome!!

A very Good afternoon!!

Today, I welcome you all to share this proud moment of inauguration of the state of Art Central Skills Lab at HIMSR & HAHCH.

A dream come true...

- It is created in an extremely short span of time, with apt location and space,
- This greatly enhanced & vibrant learning environment for our undergraduate & post graduate students is the brainchild of our dynamic & visionary CEO sahib.

The great efforts
put in.....
By the HIMSR
fraternity to make
it ..what it is
today....

- Represents the great teamwork of various clinical departments lead by various teams, starting from the Skill lab committee chaired by Prof. Sunil Kohli & our dynamic member Secretary Professor, Dr Ajay Thakral, who's now HOD Central Skills Lab and other team members.....

The great efforts put in...
By the HIMSR fraternity to
make it ..CSL..what it is
today....

I take this opportunity to also thank all my faculty, who have participated in exhaustive deliberations over the development of the skill lab including Anesthesia and Surgery, Medicine for their valuable inputs & the relentless work put in by Dr. Jyotsana and many others....including Dr. Kidwai & his team.. & F&A

The logo for 'the SKILLS LAB' is positioned on the right side of the slide. It features a large red circle overlapping a light blue circle. The text 'the SKILLS LAB' is written across the circles, with 'the' in a smaller, lowercase font and 'SKILLS LAB' in a larger, uppercase font. The background of the slide includes abstract shapes and patterns in shades of blue and red.

the SKILLS LAB

Delivering quality & prompt healthcare is one of the primary goals of HIMSR and HAHCH.....

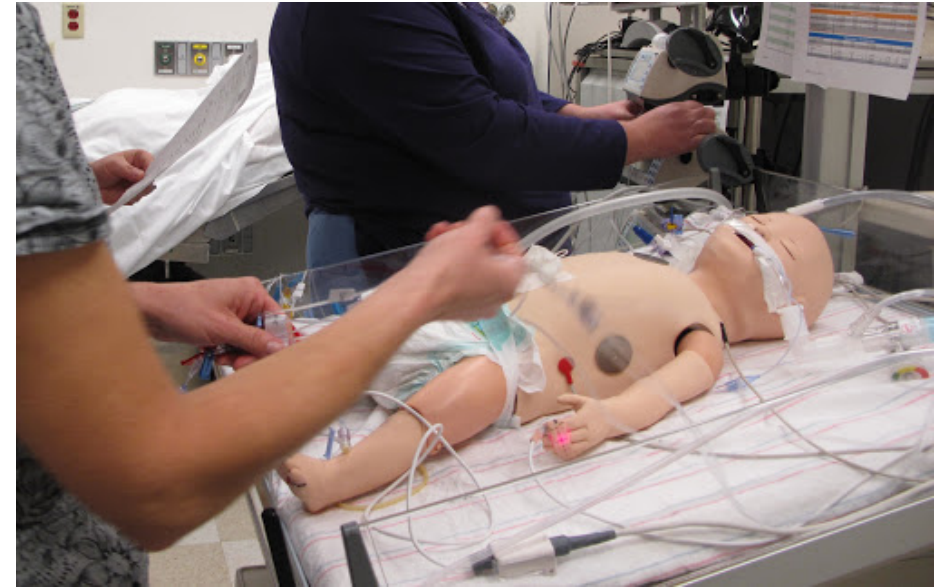

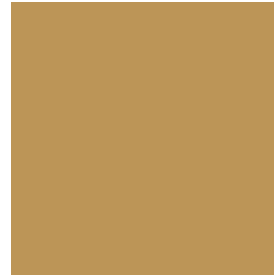

Though, it was mandated by MCI to include the Clinical Skill Lab in the medical teaching/training competency based medical curriculum since last year, but to bring it to the reality & with highest possible quality could be only possible due to our honorable CEO sahib's proactive & generous approach.

Clinical Skill Lab

The first CSL was created in Maastrich, The Netherlands Limburg University in 1976.

- The purpose of the skill lab is to provide a safe environment for the students to learn, practice & be observed performing skills in the simulated environment thus mitigating the risks involved in the direct patient exposure without adequate preparation & supervision.

Clinical Skill Lab & it's importance.....

The importance of such practical training for medical undergraduate & post graduate students, who are the future physicians & surgeons cannot be undermined.

While dealing with lives of other human beings making it is most critical component of the medical education.

Clinical Core skills....

- These include history taking with effective communication skills, physical examination & some technical and practical procedures clinical investigations using diagnostic reasoning, procedural perfection, teamwork & professionalism.

At HIMSR & HAHCH... we
focus on Quality....

- Hence, it is of paramount importance for us to augment the knowledge and clinical skills of our students as well as our healthcare professionals.

TRAINING

At HIMSR...

- We will also attempt to make it dynamic process much beyond the MCI requirements, by involving curriculum development committees, medical education unit & faculty members for their valuable inputs in its continuous up gradation process.

To reiterate that Today
what we see is the great
efforts...

- Under the kind patronage of our management, and my able faculty, I am sure that this skill lab will provide comprehensive and active learning resource material for our students.

to bring in...Quality by training
future professionals...

- It is my earnest request to all the clinical faculty to take personal initiative in operationalizing this skill lab and to harness the skills of our students to perfection.

Thank you
