Message from President Hamdard National Foundation (MREC)

*“And spend in the cause of Allah, and do good, for He loves those who do good to others.”
Al-Quran (2:196)*

We at Hamdard National Foundation (HNF) are grateful to all our healthcare professionals who are risking their safety to ensure the safety of the entire nation. We are also united with the Government and all public health foundations in this fight against COVID-19, as we believe that together we will overcome this crisis soon. Hamdard National Foundation was founded in 1964, by eminent scholars, dedicated towards nation building through allocation of the profits earned by Hamdard Laboratories for critical social causes. In this regard, Hamdard Laboratories (India), Medicine Division has pledged to provide financial support through monetary donations, to the fight against the pandemic, and protect all affected and at-risk sections of society.

HIMSR & HAHC Hospital, an ambitious project of Hamdard National Foundation, is affiliated to Jamia Hamdard University, the vision of its founder and philanthropist, Hakeem Abdul Hameed Sahib. By fulfilling the dream of Hakeem Abdul Hameed Sahib, to create an institute for suffering humanity, HIMSR & HAHC Hospital establishes the philosophy of Hamdard, “Compassion, concern, care and sharing in pain’.

Taking forward the legacy, HIMSR & HAHC Hospital is a great leap forward in line with the vision and mission of HNF. Hamdard National Foundation assures its full support to HIMSR & HAHC Hospital in its journey to become a parallel private healthcare system in New Delhi, furthering its scope in the life sciences and health domains and providing quality and affordable healthcare to all sections of society.

Janab Abdul Majeed
President Hamdard National Foundation
(HNF)-MREC

Foreword from CEO, HIMSR & HAHCH

I am pleased to write following a few lines as the foreword for the present issue of HIMSR newsletter planned to be released by first week of March 2022. Through this newsletter we remain connected with our stake holders and often exchange critical appreciations as well as new ideas that we welcome for inclusion in planning next course of action plan of the Institute.

The year 2022 is very important milestone for HIMSR and HAHCH Hospital, as we step into 2nd decade of its establishment. The years 2012 and 2016 were years of historical importance for the Institute when respectively first letter of permission (LOP) and subsequently the recognition of the institute was granted by Medical Council of India (MCI). Entering into 2nd decade for HIMSR marks yet another milestone of increasing MBBS student intake from 100 to 150 annually for which LOP was granted for 2021-22 session and will continue till 2026-27. Outstanding performance by our distinguished faculty engaged in Academic and Clinical activities in HIMSR is depicted by minimizing the mortality recorded during 2nd wave of CORONA

pandemic, even when the hospital was operating at its peak capacity. Outstanding performance of our Resident doctors and UG/PG students all along the trying times during the two waves of COVID-19 is acknowledged. The fundamental spirit of dedication and sharing of pain being the hallmark of HAMDARD was truly carried forward during the Pandemic.

Despite newer challenges of fighting deadly viral onslaught and mass immunization of unrestricted foot falls during peak Pandemic waves was elegantly accomplished by our distinguished faculty and supporting paramedical/ nursing care providers. Research outcome in terms of number of very valuable international publications (over 200 in last year alone) and epidemiological surveys carried out by our faculty and students is duly acknowledged.

I believe our worthy Dean Prof. Mridu Dudeja has presented several accomplishments made during the last six months in the present newsletter, I am therefore, avoiding repeating mention of some of those achievements in this foreword. I, nonetheless, acknowledge the great leadership depicted by her and the excellent teamwork that we are proud of in presenting HIMSR as an institution par excellence to our admirers and other stakeholders.

Dr. G N Qazi
CEO/DG
HIMSR & HAHCH

From Dean's Desk

We have entered a new era at (HIMSR) Hamdard Institute of Medical Sciences and Research with successful up gradation from 100 to 150 MBBS seats this year, which reflects the strength, talent and commitment of our medical fraternity including state of art infrastructure with unconditional support of the management.

We have successfully and safely reengaged students and faculty in our continuing quest to define the future of patient centric quality health care by successfully undergoing final NABH assessment for Accreditation & offering excellent education & training programs in health sciences, with commitment & innovation following ethos and values imparted by our beloved founder, which has been passed on as a legacy to his generations as HNF (MREC).

While pursuing excellence, climbing the national ranking amongst private and government medical colleges is my top priority as Dean of this prestigious institute. A significant portion of our efforts is directed towards promoting research opportunities for students & faculty adding richness and depth to their educational experience. Fostering healthy & congenial environment for networking amongst students & faculty members is an important step towards enabling everyone to maximise one's potential by creating a valuable support system while enhancing the vibrancy and quality of the intellectual life at the Institute.

Our researchers and clinicians also collaborate to advance personalised medicine including their involvement in prestigious national & international research projects and vaccine trials to promote health equity. Together, we are striving to become one of the pre-eminent medical colleges in the nation, anchored by first-class research efforts and a memorable academic experience. We are accelerating our efforts to advance extraordinary student opportunities thereby igniting their curiosity and critical thinking thereby providing tools required to become transformative leaders. We will continue to make a difference in our community and we are stronger in our efforts with the support of our faculty and staff. You all are the representatives of the ingenuity, innovation and commitment that are at the core of our mission at HIMSR. Our commitment together into building a healthier and stronger community is beyond doubt and your dedication in this regard sets an unforgettable standard for our aspiring physicians. I seek your support to advance this noble mission. Thank you for being part of the HIMSR family.

Prof. (Dr.) Mridu Dudeja,
Dean,
HIMSR & HAHCH

HIMSR celebrates 150 student intake : A Glimpse

HIMSR celebrates the LOP (Jan 2022) for intake of 150 MBBS students by welcoming & inducting them through the orientation program to
HIMSR & HAHCH

Inception of Hamdard Institute of Medical Sciences & Research (HIMSR) took place with LOP for 100 MBBS Seats, which was granted in 2012.....

**Inauguration of HIMSR by Mr. Ghulam Nabi Azad
Union Health Minister on 11th Sep, 2012**

The journey of quality began right from its inception >>>

NIRF Ranking amongst Medical Colleges Category

- ❖ First position among 17 Private Medical Colleges in NCR.
- ❖ Sixth position among 33 Govt. & Pvt. Medical Colleges in NCR.
- ❖ Tenth position amongst all private medical colleges ranked under NIRF across India.
- ❖ Twenty fifth position amongst all medical colleges both Govt. & Pvt. across India.

Recently, HIMSR welcomed new entrants to Orientation Program & Introduced them to HIMSR & its associated HAHC Hospital

Presidential Remarks by
CEO Dr. G N Qazi

MBBS Orientation Program 2022

New batch of MBBS students & their parents were welcomed at the “**Orientation Program**” with Great enthusiasm, which included their ice breaking session, Departmental introductions, curriculum, welcome address by MS, Dean & presidential remarks by CEO, Dr. G N Qazi, following all COVID preventive protocols

Address by Medical Superintendent,
Dr. Ajaz Mustafa

Address by Dean,
Dr. Mridu Dudeja

Culture At Hamdard Institute of Medical Sciences & Research

Paramount to the academic achievement and excellence at HIMSR, is our commitment to diversity, equity and inclusion.

Even though the past two years amongst COVID pandemic, tested our resolve, we did more in these years than just to navigate the pandemic.

**From the Desk of
Medical Superintendent
HAHC Hospital**

We at HAHC define quality as superior patient care as well as outcomes with special focus on patient safety, all together delivered in a timely manner. However, making quality healthcare affordable to the underprivileged section, in line with the core principles of the institute, has been the hallmark of our hospital services since inception. To cater to the economically weaker section, the hospital is empaneled as National Healthcare Provider (NHPC) under Ayushman Bharat Pradhan Mantri Jan Arogya Yojna. Children being the future of the nation, child health is taken as priority and in this regard free health camps are being organized by various departments for the orphan children of Delhi region.

Disease prevention is another thrust area of our institute which is highly relevant in the modern sedentary lifestyle. Various community outreach programs are being run by the hospital in the form of public awareness programs, health talks and free disease screening camps (screening for diabetes mellitus, cervical cancer, and osteoporosis).

As the COVID-19 spikes calm, our vaccination center is actively participating in the national COVID-19 vaccination drive, providing free vaccination for people > 18 years of age.

We have been able to achieve our goals by a team of committed doctors, nurses, another healthcare professionals, who further set new targets in achieving healthcare par excellence.

Medical Superintendent
HAHC Hospital**

Genesis of Hakeem Abdul Hameed Centenary Hospital (HAHCH)

710 Bedded

Block A

Block B

As it stands today, modern state-of-the-art multi-super specialty hospital, had humble beginnings in 1984 as Majeedia Hospital, the dream of its founder Janab Hakim Abdul Hamid Sahib, a conglomeration of modern and Unani Medicine under one roof. He had conceived this idea in 1953. It is a great leap forward in line with the vision of its founder Padma Shri & Padma Bhushan Hakim Abdul Hameed Sahib. Named after its founder, the hospital was built with full financial support of Hamdard National Foundation (HNF) Medical Relief Educational Council (MREC).

The new hospital block came up in 2015. Slowly and steadily the hospital grew from strength to strength. It is one of the frontrunners in providing quality care at affordable cost to the community.

The DG/CEO of the HIMSR & HAHCH, Dr. G N Qazi, who was also the former Vice Chancellor of Jamia Hamdard during 2009-2016 was instrumental in making HIMSR and HAHCH hospital a tangible entity.

Successfully undergone the Final NABH accreditation assessment

The HAHC hospital is attached to Hamdard Institute of Medical Sciences & Research (HIMSR) since 2011. The Medical College and its associated teaching hospital has all the requisite permissions by National Medical Council (NMC), Govt. of India and Delhi Govt.

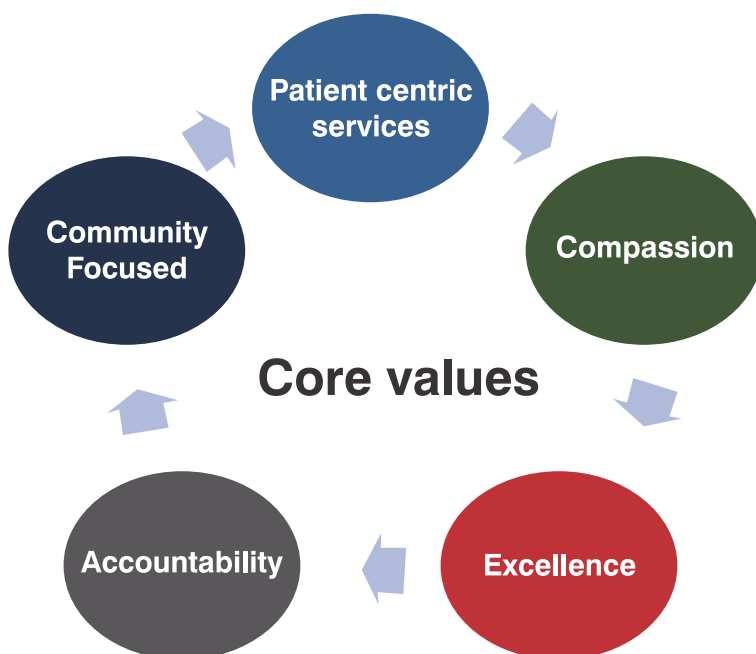

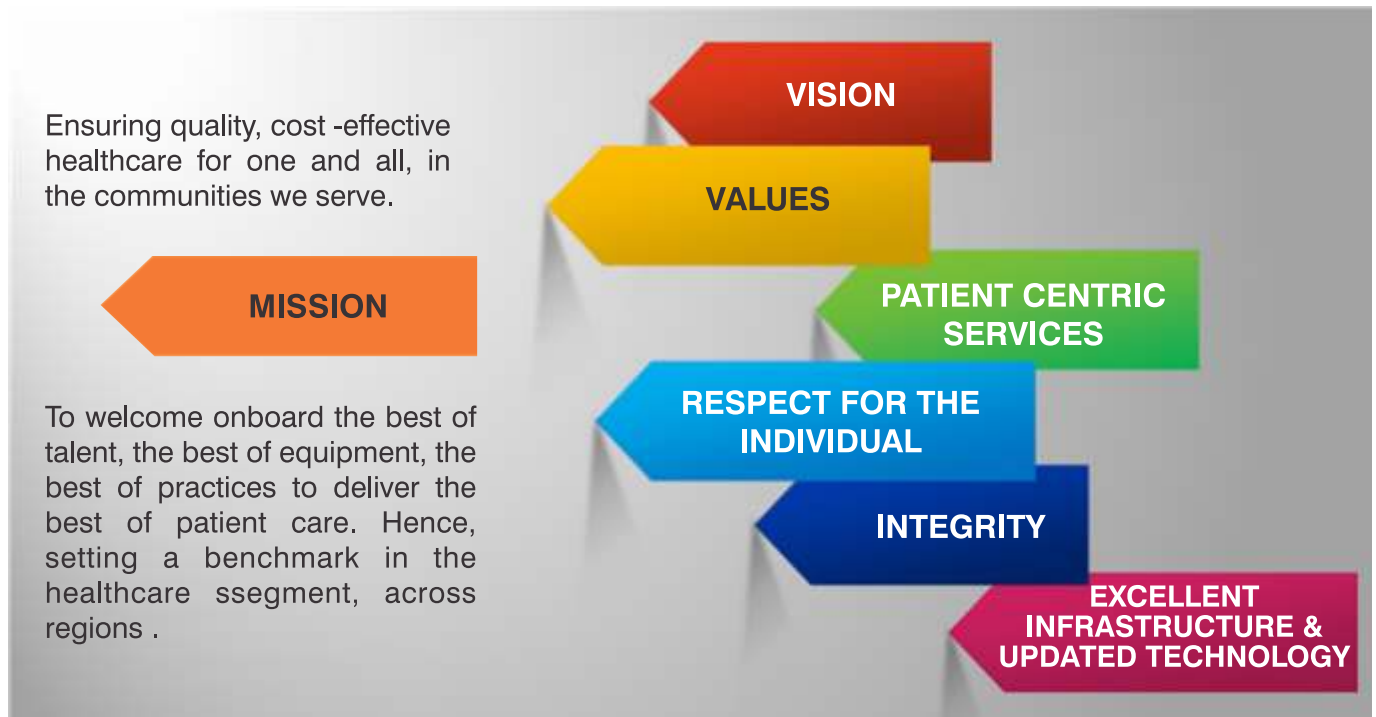

Since its inception, the HAHC hospital is on a constant growth trajectory fueled by personalised quality patient care at an affordable cost. It has an array of health care services ranging from routine wellness & preventive health care to innovative life-saving treatment and diagnostic services.

**Visionary Founder Padma Shri & Padma Bhushan
Janab Hakim Abdul Hameed Sahib**

Mission, Vision & Core Values of HIMSR & HAHCH

Hamdard Institute of Medical Sciences & Research and its associated Hakeem Abdul Hameed Centenary Hospital is a teaching Tertiary care hospital with mission & values following the ethos of Late Hakeem Abdul Hamid Saheb.

- ❖ True to its heritage, HIMSR & HAHCH place special emphasis on providing opportunities for individuals from all the backgrounds regardless of race or ethnicity
- ❖ Delivering high quality Teaching/ Training & health care services and
- ❖ Conducting research that fosters the elimination of health disparities.

Ongoing Research Projects at HAH Hospital

Randomized, Double-Blind, Placebo Controlled, Parallel-Group, Multi Centre Phase II/III Adaptive Clinical Trial to Assess the Safety and Immunogenicity of Gam-COVID-Vac Combined Vector Vaccine for SARS Cov-2 Infection in Indian Healthy Subjects -Dr. Sunil Kohli

A phase 2/3, observer-blind, randomized, controlled study to determine the safety and immunogenicity of COVOVAX [SARSCoV-2 recombinant spike protein nanoparticle vaccine (SARS-CoV-2 rS) with Matrix-M1™ adjuvant] in Indian adults -Dr. Sunil Kohli

Assessment of Potential Risk Factors for COVID-19 among Health Care Workers in a Health Care Setting in Delhi, India- Dr. Mridu Dudeja

An open label, randomized, active controlled, multi-centric Phase III study in Indian infants to assess the immunogenicity and safety of SIIPL HEXAVALENT (DTwP-HepB-IPV Hib) Vaccine Containing Reduced Dose IPV in Comparison with SIIPL PENTAVAC SD (DTwP-HepB-Hib) + POLIOVAC (IPV) Vaccines, administered as separate injections-Dr. Aparna Chakravarty

A Seamless Phase II/III, Observer-blind, Multi-centre, Randomized Clinical Trial to Evaluate Immunogenicity and Safety of BBV87, an Inactivated Chikungunya Virus Vaccine in Healthy Subjects 12-65 Years of Age. Prof. (Dr.) Sunil Kohli

An epidemiological study to assess household transmission and associated risk factors for COVID-19 disease amongst residents of Delhi, India. Prof. (Dr.) Farzana Islam

Effectiveness of Covaxin and Covishield vaccines against severe COVID-19 in India, 2021: Multi-centric hospital-based case control study-Dr Faheem Ahmed

A Phase 2/3, Randomized, Observer blind, Controlled, Multi-Center Study to Evaluate the Lot to Lot Consistency of SIIPL Meningococcal ACYW conjugate Vaccine (NmCV-5) and to Compare its Safety and Immunogenicity with that of Licensed Meningococcal ACWY Vaccine Menactra® in Healthy Individuals 18-85 Years of Age. Dr. Sunil Kohli

Patient Safety at HAHCH

The hospital management displays high professionalism in its functioning, with prime focus on medical ethics and patient safety.

Regular trainings for healthcare professionals, active surveillance and clinical auditing form the backbone of quality assurance and quality control at HAHCH hospital.

Infection Control Committee

Infection control team monitors and implements the Biomedical waste management rules as per State and Central pollution control board guidelines.

Infection control team with HICC conducts surveillance of hospital acquired infections on a real time basis with analysis and investigation of all cases. HICC closely monitors IPC activities in CSSD, Linen and laundry, Kitchen, and food safety

Among the various patient centered services, HAHCH Hospital also runs a pharmacy which functions 24x7. The pharmacy provides medicines of standard brands as well as generic medicines at genuine prices, catering to all sections of the society. It also provides free medicine to the economically weaker section (EWS) patients under the Ayushman Bharat Pradhan Mantri Jan Arogya Yojna. The pharmacy is linked to the eprescriptions through the Hospital Information System for convenient and prescription free drug dispensing to OPD as well as IPD patients.

Community Outreach

The hospital is enthusiastically engaged in community outreach programs comprising of health education, disease screening (screening for Diabetes mellitus, Cervical cancer, Osteoporosis) and Free medical and eye camps.
