

Hamdard Institute of Medical sciences and Research
Department of Dermatology & Venereology - Electives

Name of elective: Basic Dermatological Procedure- Chemical and Electrical Cautery

Name of Supervisor/Guide	Dr. Mukesh Manjhi
Name of Co-Supervisor/Guide	Dr. ASHRAF JAMAL
Department	Dermatology, Venereology & Leprosy
Name of Elective/Course	Basic Dermatological Procedure- Chemical and Electrical Cautery
No. Of students	2
Duration	1 month

Objectives

1. Enumerate the indications of cautery in dermatology
2. Describe the types of cautery and list the various agents for chemical cautery
3. Elaborate the procedure of chemical cautery in a patient
4. Describe the procedure of electrical cautery in a patient
5. Discuss the precautions to be taken for chemical and electrical cautery

Expected outcomes:

1. At the end of the course students will be able to identify the cases where electrical and chemical cauterisation will be done.
2. Will be able to describe the mechanism of action of various agents used for chemical agents used.

Expectations from the students:

1. Identify the dermatological condition
2. Know proper precautions to follow when performing procedures

Assessment mechanism:

1. Viva-voice
2. Mcq

Logbook Format:

1. At least 30 case records of patients.
