

MBBS 3rd Prof (Part-1) Time Table 2021 Batch

Sr. No.	Day, Date	WEEK No.	8 AM to 9 AM	9 AM to 12 Noon	12 Noon to 1 PM	1 PM to 2 PM	2 PM to 3 PM	3 PM to 4 PM
1	Monday, 1 April, 2024	1st	ENT EN 4.1 Elicit document and present a correct history, demonstrate and describe the clinical features, choose the correct investigations and describe the principles of management of Otaglia SGD	CLINICAL POSTING	CM 9.1: Describe Mortality and Morbidity indicators: SGD	LUNCH BREAK	Introduction to Orthopaedics	Pan 3.1. Introduction to Pandemic Module: L
2	Tuesday, 2 April, 2024		OP-3.3 LECTURE Describe the aetiology, pathophysiology, ocular features, differential diagnosis, complications. and management of various causes of conjunctivitis		8.12 Describe the appropriate diagnostic work up based on the presumed aetiology		OG 23.1 Puberty	SU21.1 Describe surgical anatomy of the salivary glands, pathology, and clinical presentation of disorders of salivary glands
3	Wednesday, 3 April, 2024		SU12.1 Enumerate the causes and consequences of malnutrition in the surgical patient		Thermal deaths: Describe the clinical features, post-mortem finding and medicolegal aspects of injuries due to physical agents like heat or cold		CM 4.1: Describe various methods of health education with their advantages and limitations - SGD	
4	Thursday, 4 April, 2024		OG 14.1 Maternal pelvic & Fetal skull		CM 4.2: Describe the methods of organizing health promotion and education and counselling activities at individual family & community settings - L		Describe types of injuries, clinical features, pathophysiology, post- mortem findings and medico-legal aspects in cases of burns, scalds, lightning, electrocution and radiations.	8.13, 18.14, 18.20 Enumerate the indications for and interpret the results of: CBC, Urine routine, BUN, Cr, Electrolytes, Uric acid, ECG Develop an appropriate treatment plan for essential hypertension Determine the need for specialist consultation
5	Friday, 5 April, 2024	JUMA - TUL - VIDA						
6	Saturday, 6 April, 2024	COMPENSATORY OFF						
7	Sunday, 7 April, 2024	WEEKLY OFF						
8	Monday, 8 April, 2024	2nd	ENT EN 4.2 Elicit document and present a correct history, demonstrate and describe the clinical features, choose the correct investigations and describe the principles of management of diseases of the external Ear SGD	CLINICAL POSTING	CM4.1: Describe various methods of health education with their advantages and limitations - SDG	LUNCH BREAK	PE1.1,1.2,1.3,1.4 Define the terminologies Growth and Development and Discuss the factors affecting normal growth and development .Discuss and Describe the patterns of growth in infants, children and adolescents, Discuss and Describe the methods of assessment of growth including use of WHO and Indian national standards. Enumerate the parameters used for assessment of physical growth in infants, children and adolescents, Perform Anthropometric measurements, document in growth charts and interpret	Pan 3.1. Introduction of 4 case scenarios- SDL
9	Tuesday, 9 April, 2024		OP-3.4 LECTURE Describe the aetiology, pathophysiology, ocular features, differential diagnosis, complications and management of trachoma		14.1,14.2,14.4,14.5 Define and measure obesity in the Indian population Aetiology of obesity including modifiable and non-modifiable risk factors and secondary causes Describe and discuss the impact of environmental factors -eating habits, food, work, Environment, physical activity on the incidence of obesity Natural history of obesity and its complications		OG 23.2/23.3 Abnormal puberty	SU21.1 Describe surgical anatomy of the salivary glands, pathology, and clinical presentation of disorders of salivary glands
10	Wednesday, 10 April, 2024		SU21.2 Enumerate the appropriate investigations and describe the principles of treatment of disorders of salivary glands		FM2.28 Describe and discuss signs of intrauterine death, signs of live birth, viability of foetus, age determination of foetus, DOAP session of ossification centres, Hydrostatic test, Sudden Infants Death syndrome and Munchausen's syndrome by proxy		CM 4.2 Describe methods of organizing health promotion and education and counselling activities at individual family & community settings - SGD	
11	Thursday, 11 April, 2024		EID - UL - FITR*					
12	Friday, 12 April, 2024	2nd SATURDAY OFF WEEKLY OFF	14.9,14.10,14.13 Order and interpret diagnostic tests based on the clinical diagnosis including blood glucose, lipids, thyroid function tests etc. Describe the indications and interpret the results of tests for secondary causes of obesity Describe and enumerate the indications, pharmacology and side effects of pharmacotherapy for obesity	CLINICAL POSTING	FM3.14 SEXUAL OFFENCES Describe and discuss the examination of the victim of an alleged case of rape, and the preparation of report, framing the opinion and preservation and despatch of trace evidences in such cases	LUNCH BREAK	PE1.5,1.6 Define development and Discuss the normal developmental milestones with respect to motor, behaviour, social, adaptive and language, Discuss the methods of assessment of development. PE2.1,2.4,2.6 Discuss the etiopathogenesis, clinical features and management of a child who fails to thrive, Discuss the etiopathogenesis, clinical features and management of a child with short stature, Enumerate the referral criteria for growth related problems	
13	Saturday, 13 April, 2024		2nd SATURDAY OFF					
14	Sunday, 14 April, 2024	WEEKLY OFF						
15	Monday, 15 April, 2024	3rd	ENT EN 4.3 Elicit document and present a correct history, demonstrate and describe the clinical features, choose the correct investigations and describe the principles of management of ASOM SGD	CLINICAL POSTING	CM 3.5: Describe the standards of housing and the effect of housing on Health (I) - L	LUNCH BREAK	OP-3.6 SGD Describe the aetiology, pathophysiology, ocular features, differential diagnosis, complications and management of pterygium	Dyspnea in pregnancy (FGR)
16	Tuesday, 16 April, 2024		OP-3.5 LECTURE Describe the aetiology, pathophysiology, ocular features, differential diagnosis, complications and management of vernal catarrh		FM3.15: SEXUAL OFFENCES Describe and discuss examination of accused and victim of sodomy, preparation of report, framing of opinion, preservation and despatch of trace evidences in such cases		OG24.1(I)AUB-1	SU12.2 Describe and discuss the methods of estimation and replacement of the fluid and electrolyte requirements in the surgical patient
17	Wednesday, 17 April, 2024		RAM NAVAMI					
18	Thursday, 18 April, 2024	OG 22.1 Physiological discharge		Family Adoption Programme: Phase 3 Orientation		OR2.1 Describe and discuss the mechanism of Injury, clinical features, investigations and plan management of fracture of clavicle and proximal humerus fractures	14.14, 14.15 Describe and enumerate the indications and side effects of bariatric surgery Describe and enumerate and educate patients, health care workers and the public on measures to prevent obesity and promote a healthy lifestyle	

19	Friday, 19 April, 2024		Enumerate the heat-related illnesses. Discuss the clinical features and management of heat stroke	CLINICAL POSTING	FM3.16SEXUAL OFFENCES Describe and discuss adultery and unnatural sexual offences-sodomy, incest, lesbianism, buccal coitus, bestiality, indecent assault and preparation of report, framing the opinion and preservation and despatch of trace evidences in such cases	LUNCH BREAK	ENT EN 4.1Elicit document and present a correct history, demonstrate and describe the clinical features, choose the correct investigations and describe the principles of management of Otalgia SDL	PE3.1,3.2,3.5Define, Enumerate and Discuss the causes of developmental delay and disability including intellectual disability in children,Discuss the approach to a child with developmental delay,Discuss the role of the child developmental unit in management of developmental delay		
20	Saturday, 20 April, 2024		SU12.2 Describe and discuss the methods of estimation and replacement of the fluid and electrolyte requirements in the surgical patient	OK2.4 Describe and discuss the mechanism of injury, clinical features, shaft of humerus and intercondylar fracture humerus with emphasis on neurovascular deficit	CM 3.5: Describe the standards of housing and the effect of housing ventilation on Health (II) - L		AETCOM Ophthalmology Module 3.1: Foundations of Communication Demonstrate ability to communicate to patients in a patient, respectful, non-threatening, non-judgmental and empathetic manner – SGD(1hr),SDL(1 hr)			
21	Sunday, 21 April, 2024		MAHAVIRJAYANTI							
22	Monday, 22 April, 2024	4th	ENT EN 4.4 Demonstrate the correct technique to hold visualize and assess the mobility of the tympanic membrane and its mobility and interpret and diagrammatically represent the findings SGD	CLINICAL POSTING	CM 3.5 Describe the standards of housing and the effect of housing on Health - SGD	LUNCH BREAK	PE3.6,3.7,3.8Discuss the referral criteria for children with developmental delay,Visit a Child Developmental Unit and Observe its functioning,Discuss the etiopathogenesis, clinical presentation and multidisciplinary approach in the management of cerebral palsy	Barrier & Natural Contraception		
23	Tuesday, 23 April, 2024		OP-3.7 LECTURE Describe the aetiology, pathophysiology, ocular features, differential diagnosis, complications and management of symblepharon		FM3.17Describe and discuss the sexual perversions fetichism, transvestism, voyeurism, sadism, necrophagia, masochism, exhibitionism, frotteurism, Necrophilia		OG24.1(1)AUB-2	SU12.3 Discuss the nutritional requirements of surgical patients, the methods of providing nutritional support and their complications		
24	Wednesday, 24 April, 2024		SU12.3 Discuss the nutritional requirements of surgical patients, the methods of providing nutritional support and their complications		FM3.20 Discuss disputed paternity and maternity		Family Adoption Program Visit : Data Collection, Health Education in the family			
25	Thursday, 25 April, 2024		OG 22.2 Pathological discharge		CM 3.6: Describe the role of vectors in the causation of diseases -L		FM3.22: Define and discuss impotence, sterility, frigidity, sexual dysfunction, premature ejaculation. Discuss the causes of impotence and sterility in male and female	Discuss the causes, clinical features, investigations and management of hypothermia. Discuss frostbite		
26	Friday, 26 April, 2024		Discuss the adverse effects and management of radiation exposure		FM3.21 Discuss Pre-conception and Pre Natal Diagnostic Techniques (PC&PNDT) - Prohibition of Sex Selection Act 2003 and Domestic Violence Act 2005		PE4.1,4.2,4.3,4.4,Discuss the causes and approach to a child with scholastic backwardness,Discuss the etiology, clinical features, diagnosis and management of a child with learning disabilities ,Discuss the etiology, clinical features, diagnosis and management of a child with Attention Deficit Hyperactivity Disorder (ADHD),Discuss etiology, clinical features, diagnosis and management of a child with autism			
27	Saturday, 27 April, 2024		4th SATURDAY OFF							
28	Sunday, 28 April, 2024	WEEKLY OFF								
29	Monday, 29 April, 2024	5th	ENT EN 4.7 Elicit document and present a correct history demonstrate and describe the clinical features, choose the correct investigations and describe the principles of management of mucosal type of CSOM LECTURE	CLINICAL POSTING	CM 3.6: Discuss National Vector Borne disease Control Program - L	LUNCH BREAK	PE4.5,4.6,Discuss the role of Child Guidance Clinic in children with Developmental problems,Visit to the Child Guidance Clinic	Oral Contraception		
30	Tuesday, 30 April, 2024		OP-2.1 LECTURE Enumerate the causes, describe and discuss the aetiology, clinical presentations and diagnostic features of common conditions of the lid and adnexa including Hordeolum externum/ internum, blepharitis, preseptal cellulitis, dacryocystitis, hemangioma, dermoid, ptosis, entropion, lid lag, lagophthalmos		3.1, 3.2 Define, discuss, describe and distinguish community acquired pneumonia, nosocomial pneumonia and aspiration pneumonia Discuss and describe the aetiologies of various kinds of pneumonia and their microbiology depending on the setting and immune status of the host		OG 29.1 (2) Fibroid	SU13.1 Describe the immunological basis of organ transplantation		
31	Wednesday, 1 May, 2024	1st	SU13.2 Discuss the Principles of immunosuppressive therapy.Enumerate Indications, describe surgical principles, management of organ transplantation	CLINICAL POSTING	FM3.27Define, classify and discuss abortion, methods of procuring MTP and criminal abortion and complication of abortion. MTP Act 1971	LUNCH BREAK	CM 3.7: Identify and describe the identifying features and life cycles of vectors of Public Health importance and their control measures - SGD CM 3.6: Describe the role of vectors in the causation of diseases. Also discuss National Vector Borne disease Control Program - SGD			
32	Thursday, 2 May, 2024		OG 5.1/8.1 ANC Care		CM 3.8Describe the mode of action, application cycle of commonly used insecticides and rodenticides - L		FM3.28Describe evidences of abortion - living and dead, duties of doctor in cases of abortion, investigations of death due to criminal abortion	3.3 Discuss and describe the pathogenesis, presentation, natural history and complications of pneumonia		
33	Friday, 3 May, 2024		13.15,13.16 Describe and enumerate the indications for hospitalisation in patients with pneumonia Describe and enumerate the indications for isolation and barrier nursing in patients with pneumonia		FM3.29Describe and discuss child abuse and battered baby syndrome		CM 8.1Describe and discuss the epidemiological and control measures including the use of essential laboratory tests at the primary care level for communicable diseases - L			
34	Saturday, 4 May, 2024		SU13.2 Discuss the Principles of immunosuppressive therapy.Enumerate Indications, describe surgical principles, management of organ transplantation		ORTHO		OR2.3 Select, prescribe and communicate appropriate medications for relief of joint pain	AETCOM Ophthalmology Module 3.1: Foundations of Communication Demonstrate ability to communicate to patients in a patient, respectful, non-threatening, non-judgmental and empathetic manner – SGD		
35	Sunday, 5 May, 2024	WEEKLY OFF								
36	Monday, 6 May, 2024		ENT EN 4.13 Describe the clinical features, investigations and principles of management of Otosclerosis LECTURE	CLINICAL POSTING	CM 8.1Describe and discuss the epidemiological and control measures including the use of essential laboratory tests at the primary care level for communicable diseases - SGD	LUNCH BREAK	OR2.5 Describe and discuss the aetiopathogenesis, clinical features, mechanism of injury, investigation & principles of management of fractures of both bones forearm and Galeazzi and Monteggia injury	Pan 3.1. Introduction of 4 case scenarios- SGD		
37	Tuesday, 7 May, 2024		OP-2.3 LECTURE Demonstrate under supervision clinical procedures performed in the lid including: bells phenomenon, assessment of entropion/ ectropion, perform the regurgitation test of lacrimal sac. massage technique in cong. dacryocystitis, and trichiatric cilia removal by epilation		13.17,1.19 Describe and discuss the supportive therapy in patients with pneumonia including oxygen use and indications for ventilation Discuss, describe, enumerate the indications and communicate to patients on pneumococcal and influenza vaccines		OG 26.1 Endometriosis	SU13.3 Discuss the legal and ethical issues SU13.4 Counsel patients and relatives on organ donation in a simulated environment concerning organ donation		
38	Wednesday, 8 May, 2024	2nd	SU13.3 Discuss the legal and ethical issues SU13.4 Counsel patients and relatives on organ donation in a simulated environment concerning organ donation	CLINICAL POSTING	FM5.1Classify common mental illnesses including post-traumatic stress disorder (PTSD)	LUNCH BREAK	Family Adoption Program Visit : Data Collection, Control Measures for Environment			
39	Thursday, 9 May, 2024		OG 19.1 Puerperium Normal		CM 8.2Describe and discuss the epidemiological and control measures including the use of essential laboratory tests at the primary care level for Non-Communicable diseases - L		FM5.2Define, classify and describe delusions, hallucinations, illusion, lucid interval and obsessions with exemplification	MED.		
40	Friday, 10 May, 2024		6.3 Describe and discuss the relationship between CDC count and the risk of opportunistic infections		FM5.3Describe Civil and criminal responsibilities of a mentally ill person		PE3.4,3.5,3.6,3.7,3.8,3.9,Describe the clinical features, diagnosis and management of breath holding spells,Describe the clinical features, diagnosis and management of temper tantrums,Describe the clinical features, diagnosis and management of pica,Describe the clinical features, diagnosis and management of fussy infant. Discuss the etiology, clinical features and management of enuresis,Discuss the etiology, clinical features and management			
41	Saturday, 11 May, 2024	2nd SATURDAY OFF								

42	Sunday, 12 May, 2024			WEEKLY OFF				
43	Monday, 13 May, 2024	ENT EN 4.14 Describe the clinical features, investigations and principles of management of Sudden Sensorineural Hearing Loss LECTURE	CLINICAL POSTING	CM 8.2 Describe and discuss the epidemiological and control measures including the use of essential laboratory tests at the primary care level for Non-Communicable diseases - SGD .	LUNCH BREAK	PE6.1, 6.2.6.3. Define Adolescence and stages of adolescence. Describe the physical, physiological and psychological changes during adolescence (Puberty). Discuss the general health problems during adolescence	Pan 3.1. Lecture Define terms: outbreak, epidemic, pandemic. How to detect/recognize a n outbreak. Warning signs of an impending outbreak. Steps of outbreak investigation Differentiate between isolation and quarantine- L.	
44	Tuesday, 14 May, 2024	OP-2.4, OP-2.5 LECTURE Describe the aetiology, clinical presentation. Discuss the complications and management of orbital cellulitis Describe the clinical features on ocular examination and management of a patient with cavernous sinus thrombosis	CLINICAL POSTING	6.5 Describe and discuss the pathogenesis, evolution and clinical features of common HIV related malignancies	LUNCH BREAK	Physiology & Menstruation	SU 14.1 Describe Aseptic techniques, sterilization and disinfection.	
45	Wednesday, 15 May, 2024	SU14.2 Describe Surgical approaches, incisions and the use of appropriate instruments in Surgery in general		FM5.4 Differentiate between true insanity from feigned insanity		CM 8.1 Describe and discuss the epidemiological and control measures including the use of essential laboratory tests at the primary care level for communicable diseases - SGD		
46	Thursday, 16 May, 2024	OG 27.1 STD	CLINICAL POSTING	CM 8.1 Describe and discuss the epidemiological and control measures including the use of essential laboratory tests at the primary care level for Influenza (L)		OR2.14 Fat embolism syndrome	6.6 Describe and discuss the pathogenesis, evolution and clinical features of common HIV related skin and oral lesions	
47	Friday, 17 May, 2024	6.9 Choose and interpret appropriate diagnostic tests to diagnose and classify the severity of HIV- AIDS including specific tests of HIV, CDC		FM5.5 Describe & discuss Delirium tremens	LUNCH BREAK	ENT EN 4.3 Elicit document and present a correct history, demonstrate and describe the clinical features, choose the correct investigations and describe the principles of management of ASOM SDL	PE5.10, 5.11, Revision behavioural problems, Discuss the role of child guidance clinic in children with behavioural problems and the referral criteria. Visit to Child Guidance Clinic and observe functioning	
48	Saturday, 18 May, 2024	SU14.2 Describe Surgical approaches, incisions and the use of appropriate instruments in Surgery in general	OR2.11 Describe and discuss the aetiopathogenesis, mechanism of injury, clinical features, investigations and principles of management of (a) Fracture patella (b) Fracture	CM 8.1 Describe and discuss the epidemiological and control measures including the use of essential laboratory tests at the primary care level for Viral Hepatitis (L)		AETCOM Ophthalmology Module 3.1: Foundations of Communication Demonstrate ability to communicate to patients in a patient, respectful, non-threatening, non-judgmental and empathetic manner - SDL		
49	Sunday, 19 May, 2024			WEEKLY OFF				
50	Monday, 20 May, 2024	ENT EN 4.15 Describe the clinical features, investigations & management of Noise Induced Hearing Loss LECTURE	CLINICAL POSTING	CM 8.1 Describe the epidemiological & control measures at the primary care level for Cholera, Typhoid (SGD)	LUNCH BREAK	OP-2.6 LECTURE Enumerate the causes and describe the differentiating features, and clinical features and management of proptosis	OG 18.1, 18.2/18.4 Newborn care	
51	Tuesday, 21 May, 2024	OP-2.7 LECTURE Classify the various types of orbital tumours. Differentiate the symptoms and signs of the presentation of various types of ocular tumours	CLINICAL POSTING	FM6.1 Describe different types of specimen and tissues to be collected both in the living and dead: Body fluids (blood, urine, semen, faeces saliva), Skin, Nails, tooth pulp, vaginal smear, viscera, skull, specimen for histo-pathological examination, blood grouping, HLA Typing and DNA Fingerprinting. Describe Locard's Exchange Principle	LUNCH BREAK	Preterm Labour (SGL)	SU14.3 Describe the materials and methods used for surgical wound closure and anastomosis (sutures, knots and needles)	
52	Wednesday, 22 May, 2024	SU14.3 Describe the materials and methods used for surgical wound closure and anastomosis (sutures, knots and needles)	CLINICAL POSTING	FM6.2 Describe the methods of sample collection, preservation, labelling, dispatch, and interpretation of reports	LUNCH BREAK	CM 8.1 Describe and discuss the epidemiological and control measures including the use of essential laboratory tests at the primary care level for communicable diseases - Lecture (1 hr), SGD (1hr) Polio		
53	Thursday, 23 May, 2024			BUDDHA PURNIMA				
54	Friday, 24 May, 2024	6.10 Choose and interpret appropriate diagnostic tests to diagnose opportunistic infections including CBC sputum examination and cultures, blood cultures, stool analysis, CSF analysis and Chest radiograph	CLINICAL POSTING	FM7.1 Enumerate the indications and describe the principles and appropriate use for: -DNA profiling- -Facial reconstruction -Polygraph (Lie Detector) -Narcoanalysis, -Brain Mapping, -Digital autopsy, -Virtual Autopsy, -Imaging technologies	LUNCH BREAK	PE6.4, 6.5, 6.6, 6.7, Describe adolescent sexuality and common problems related to it, Explain the Adolescent Nutrition and common nutritional problem, Discuss the common Adolescent eating disorders (Anorexia nervosa, Bulimia), Describe the common mental health problems during adolescence, PE6.10, 6.12, 6.13, Discuss the objectives and functions of AFHS (Adolescent Friendly Health Services) and the referral criteria Enumerate the importance of obesity and other NCD in adolescents, Enumerate the prevalence and the importance of recognition of sexual drug abuse in adolescents and children		
55	Saturday, 25 May, 2024			4th SATURDAY OFF				
56	Sunday, 26 May, 2024			WEEKLY OFF				
57	Monday, 27 May, 2024	ENT EN 4.18 Describe the clinical features, investigations and principles of management of Facial Nerve palsy. LECTURE	CLINICAL POSTING	CM 8.1 Describe the epidemiological & control measures at the primary care level for Plague: L	LUNCH BREAK	PE7.1, 2.7.3, 7.4, Awareness on the cultural beliefs and practices of breastfeeding, Explain the Physiology of lactation, Describe the composition and types of breast milk and Discuss the differences between cow's milk and Human milk, Discuss the advantages of breast milk	IUCD/PPIUCD	
58	Tuesday, 28 May, 2024	OP-2.8 SGD List the investigations helpful in diagnosis of orbital tumors. Enumerate the indications for appropriate referral		FM8.1 Describe the history of Toxicology FM8.2 Define the terms Toxicology, Forensic Toxicology, Clinical Toxicology and poison		OG 27.4 PID	SU14.3 Describe the materials and methods used for surgical wound closure and anastomosis (sutures, knots and needles)	
59	Wednesday, 29 May, 2024	SU15.1 Describe classification of hospital waste and appropriate methods of disposal.		FM8.3 Describe the various types of poisons, Toxicokinetics, and Toxicodynamics and diagnosis of poisoning in living and dead		CM 8.1 Describe and discuss the epidemiological and control measures including the use of essential laboratory tests at the primary care level Tetanus, Leprosy & Trachoma. SGD		
60	Thursday, 30 May, 2024	IUCD/PPIUCD	CLINICAL POSTING	CM 8.1 Describe the epidemiological & control measures at the primary care level for Rabies: L	LUNCH BREAK	OR2.15 Describe and discuss the aetiopathogenesis, clinical features, Investigation and principles of management of (a) Fracture both bones leg (b) Calcaneus (c) Small bones of the foot	6.11, 6.12 Enumerate the indications and describe the findings for CT of the chest and brain and MRI Enumerate the indications for and interpret the results of: pulse oximetry, ABG, Chest Radiograph	
61	Friday, 31 May, 2024	6.13, 6.14 Indications, side effects of Drugs for bacterial, viral and other types of diarrhea Discuss and describe the principles of HAART, the classes of antiretroviral used, adverse reactions and interactions		FM8.4 Describe the Laws in relations to poisons including NDPS Act, Medico-legal aspects of poisons		CM 8.1 Describe and discuss the epidemiological and control measures including the use of essential laboratory tests at the primary care level Soil-transmitted helminthiasis - L		
62	Saturday, 1 June, 2024	SU17.1 Describe the principles of first aid	OR3.1 Describe and discuss the mechanism of injury, clinical features, investigations principles of management of open fractures with a focus on secondary infection	OR2.17 Plan and interpret the investigations to diagnose complications of fractures like malunion, non-union, infection, compartment syndrome	LUNCH BREAK	AETCOM ENT Module 3.2: Case studies in bioethics - Disclosure of medical errors Demonstrate an understanding of the implications and the appropriate procedure and response to be followed in the event of medical errors -SGD		
63	Sunday, 2 June, 2024			WEEKLY OFF				

64	Monday, 3 June, 2024	1st	ENT EN 4.19 Describe the clinical features, investigations and principles of management of Vertigo. LECTURE	CLINICAL POSTING	CM 8.2 Describe and discuss the epidemiological and control measures including the use of essential laboratory tests at the primary care level Hypertension & Stroke - L	LUNCH BREAK	ORTHO	Pan 3.1. Lecture Describing the event in terms of time, place, and person, epidemic curve, spot map, and attack rate. Responses at different levels - measures include reservoir control, breaking the chain of transmission, and protecting the at-risk group. Role of contact tracing in outbreak control- L		
65	Tuesday, 4 June, 2024		OP-1.1 LECTURE Describe the physiology of vision		6.17.6.18 Discuss and describe the principles and regimens used in post exposure prophylaxis Enumerate the indications and discuss prophylactic Drugs used to prevent HIV related opportunistic infections		OG27.3 HIV in pregnancy	SU17.3 Describe the Principles in management of mass casualties		
66	Wednesday, 5 June, 2024		SU17.4 Describe Pathophysiology, mechanism of head injuries		FM8.5 Describe Medico-legal autopsy in cases of poisoning including preservation and dispatch of viscera for chemical analysis		CM 8.2 Describe and discuss the epidemiological and control measures including the use of essential laboratory tests at the primary care level Diabetes mellitus, Obesity- L			
67	Thursday, 6 June, 2024		OG 19.1 Puerperium Abnormal		CM 8.2 Describe and discuss the epidemiological and control measures including the use of essential laboratory tests at the primary care level : Cancers -L		FM8.7 Describe simple Bedside clinic tests to detect poison/drug in a patient's body fluids	6.22, 6.23 Demonstrate understanding of ethical and legal issues regarding patient confidentiality and disclosure in patients with HIV Demonstrate a non-judgmental attitude to patients with HIV and to their lifestyles		
68	Friday, 7 June, 2024		5.1,5.2 Describe and discuss the physiologic and biochemical basis of hyperbilirubinemia Describe and discuss the etiology and pathophysiology of liver injury		FM8.6 Describe the general symptoms, principles of diagnosis and management of common poisons encountered in India		CM 8.3 Enumerate and describe NPNC- SGD			
69	Saturday, 8 June, 2024	2nd SATURDAY OFF								
70	Sunday, 9 June, 2024	WEEKLY OFF								
71	Monday, 10 June, 2024	2nd	ENT EN 4.20 Describe the clinical features, investigations and principles of management of Meniere's Disease. LECTURE	CLINICAL POSTING	CM 8.3 Enumerate and describe National Program for Control of Blindness and Visual Impairment - SGD	LUNCH BREAK	PE8.1,8.2,8.3. Define the term Complementary Feeding. Discuss the principles, the initiation, attributes, frequency, technique and hygiene related to complementary feeding including IYCF. Enumerate the common complimentary foods	Pan 3.1. Discussion and closure SDL		
72	Tuesday, 11 June, 2024		OP-1.2 LECTURE Define, classify and describe the types and methods of correcting refractive errors		5.3 Describe and discuss the pathologic changes in various forms of liver disease		OG 25.1(1) Primary Amenorrhea	SU17.5 Describe clinical features, neurological assessment and GCS in head injuries		
73	Wednesday, 12 June, 2024		SU17.6 Choose appropriate investigations and discuss the principles of management of head injuries		FM8.9 Describe the procedure of intimation of suspicious cases or actual cases of foul play to the police, maintenance of records, preservation and dispatch of relevant samples for laboratory analysis.		Family Adoption Programme Visit: Health Promotion Activities in Community			
74	Thursday, 13 June, 2024		OG 17.1/17.3 Lactation		CM 8.1 Describe the epidemiological & control measures at the primary care level for Tuberculosis. CM 8.3 Enumerate and describe NTEP - L		FM8.10 Describe the general principles of Analytical Toxicology and give a brief description of analytical methods available for toxicological analysis:	5.4 Describe and discuss the epidemiology, microbiology, immunology and clinical evolution of infective (viral) hepatitis		
75	Friday, 14 June, 2024		5.5 Describe and discuss the pathophysiology and clinical evolution of alcoholic liver disease		FM9.1 Describe General Principles and basic methodologies in treatment of poisoning; decontamination, supportive therapy, antidote therapy, procedures of enhanced elimination with regard to: Caustics Inorganic – sulphuric, nitric, and hydrochloric acids; Organic- Carbolic Acid (phenol), Oxalic and acetylsalicylic acids		PE9.1,9.2,9.3. Describe the age-related nutritional needs of infants, children and adolescents including micronutrients and vitamins. Describe the tools and methods for assessment and classification of nutritional status of infants, children and adolescents. Explain the calorific value of common Indian foods. PE10.1,10.2,10.6. Define and Describe the etiopathogenesis, classify including WHO classification, clinical features, complication and management of severe acute malnourishment (SAM) and moderate acute Malnutrition (MAM) . Outline the clinical approach to a child with SAM and MAM . Enumerate the role of locally prepared therapeutic diets and ready to use therapeutic diets			
76	Saturday, 15 June, 2024	SU17.6 Choose appropriate investigations and discuss the principles of management of head injuries	ORTH	CM 8.1,8.2: Epidemiology of Communicable and Non Communicable Diseases - SDL	LUNCH BREAK	ALTCOM ENT module 3.2: case studies in diagnostics - Disclosure of medical errors Demonstrate an understanding of the implications and the appropriate procedure and response to be followed in the event of medical errors - SDL				
77	Sunday, 16 June, 2024	WEEKLY OFF								
78	Monday, 17 June, 2024	EID-UL-AZHA*								
79	Tuesday, 18 June, 2024	EID-UL-AZHA*								
80	Wednesday, 19 June, 2024	3rd	SU17.7 Describe the clinical features of soft tissue injuries. Choose appropriate investigations and discuss the principles of management	CLINICAL POSTING	FM9.2 Describe General Principles and basic methodologies in treatment of poisoning; decontamination, supportive therapy, antidote therapy, procedures of enhanced elimination with regard to Phosphorus, Iodine, Barium	LUNCH BREAK	CM 8. Discuss organization structure Tuberculosis programme: NTEP. CM 8.3 Discuss organization structure NACO - SGD			
81	Thursday, 20 June, 2024		PCOS		CM 8.3 Enumerate and describe NTEP - SDG		OR 3.2 Describe and discuss the aetiopathogenesis, clinical features, investigations, and principles of management of Bone and Joint Infections: a) Acute Osteomyelitis b) Subacute osteomyelitis	5.6 Describe and discuss the pathophysiology, clinical evolution and complications of cirrhosis and portal hypertension including ascites, spontaneous bacterial peritonitis, hepatorenal syndrome and hepatic encephalopathy		
82	Friday, 21 June, 2024		5.7.5.13, Enumerate and describe the causes and pathophysiology of Drug induced liver injury Enumerate the indications for ultrasound and other imaging studies including MRCP and ERCP and describe the findings in liver		FM9.3 Describe General Principles and basic methodologies in treatment of poisoning; decontamination, supportive therapy, antidote therapy, procedures of enhanced elimination with regard to Arsenic, lead, mercury, copper, iron, cadmium and thallium		ENT EN 4.5 Elicit document and present a correct history, demonstrate and describe the clinical features, choose the correct investigations and describe the principles of management of OME SDL	PE11.1,11.2,11.6. Describe the common etiology, clinical features and management of obesity in children. Discuss the risk approach for obesity and Discuss the prevention strategies. Discuss criteria for referral
