➤ Manager Pharmacy, HAH Centenary Hospital to prepare the proposals under the convenership of member secretary of the committee.

**Goals and Objectives of the PTC:**

The goal of a PTC is to ensure that patients are provided with the best possible cost effective and quality of care through determining what medicines will be available, at what cost, and how they will be used.

In order to achieve this goal a PTC will have the following objectives:

➤ To develop and implement an efficient and cost-effective formulary system which includes consistent standard treatment protocols, a formulary list and formulary manual.

➤ To ensure that only efficacious, safe, cost-effective and good quality medicines are used.

➤ To ensure the best possible drug safety through monitoring, evaluating and thereby preventing, as far as possible, adverse drug reactions (ADRs) and medication errors.

➤ To develop and implement interventions to improve medicine use by prescribers, dispensers and patients; this will require the investigation and monitoring of medicine use.
