College & Hospital

S. No.	Information of the medical college/institution Year of Inception: Government/private	 2012 Private
1.	Name	Hamdard Institute of Medical Sciences & Research
2.	Address with pin code	Guru Ravidas Marg, Hamdard Nagar, New Delhi – 110062
3.	University address with pin code	Jamia Hamdard, Hamdard Nagar, New Delhi – 110062
4.	Official website	www.himsr.co.in
5.	Dean/ Principal/ Director	Prof. (Dr.) Musharraf Husain
6.	Mobile Number	7838177803
7.	Email ID of Dean	dean@himsr.co.in
8.	Hospital	HAH Centenary Hospital
9.	Date and Year of Registration of the Hospital	06/12/2023
10.	Number of Beds	710
11.	Number of Beds for Emergency	30
12.	Date of the First Letter of Permission (LoP) of MBBS	29.06.2012
13.	Status of Recognition	Recognised for 100 MBBS seats Renewal for 150 MBBS seats
14.	Number of MBBS and PG broad specialty and super specialty students admitted in this session*	MBBS: 0 MD/MS: 40 DM/MCh: -Nil
15.	Inpatients registered and admitted (Previous month record)	October, 2026: 3,510
16.	Outpatients registered (Previous month record)	October, 2026: 46,630
17.	Number of Death reported to the Municipality/village register (month-wise) (Previous month record)	October, 2026: 21
18.	Address and pin code of the Corporation/Village where the Death records are reported	Office of Deputy Commissioner South Zone Municipal Corporation of Delhi Sri Aurobindo Marg, Block A, Green Park Extension, Green Park, New Delhi, Delhi 110016
19.	Website link/ email ID/hyperlink of the corporation in case Death records are reported	https://mcdonline.nic.in/portal
20.	Number of Birth reported (Month-wise)	October, 2026: 293
21.	Address and pin code of the Corporation/village where the Birth records are reported	Office of Deputy Commissioner South Zone Municipal Corporation of Delhi Sri Aurobindo Marg, Block A, Green Park Extension, Green Park, New Delhi, Delhi 110016

22.	Website link/ email ID/ hyperlink of the corporation in case Birth Records are reported	https://mcdonline.nic.in/portal
23.	Number of Rooms in Men's Hostel and students accommodation	Number of Rooms : 110 Total accommodated: 192
24.	Total Number of Rooms in Women's Hostel and students accommodated	Number of Rooms : 150 Total accommodated: 268
25.	Name of the Grievance Redressed Officer (PIO & CPIO):	PIO: - Dr. Ayan Kumar Das CPIO :- Dr. Taskin Khan
26.	Address with Pin code	Guru Ravidas Marg, Hamdard Nagar, New Delhi – 110062
27.	Telephone Number Email Id	011-35404911 grievancecell@himsr.co.in
28.	Grievances reported (Previous month record)	0

29. Details of Post- Graduation Courses offered

Post Graduate Course	Year of Commencement of the Course	Number of Students Currently pursuing the Course	Number of Students admitted in the current session
MD Pathology	2017	9	3
MD Anatomy	2017	3	-
MD Community Medicine	2017	9	3
MS Surgery	2020	11	3
MS Orthopaedics	2020	8	2
MD General Medicine	2020	12	4
MD Anaesthesiology	2020	12	4
MS Ophthalmology	2020	9	3
MD Paediatrics	2020	12	4
MD Radio-Diagnosis	2020	9	3
MS Otorhinolaryngology	2020	6	2
MD Pharmacology	2020	11	3
MS Obstetrics & Gynaecology	2020	12	4
MD Biochemistry	2020	5	1
MD Microbiology	2020	7	1

30. Department-wise list of Faculty Members

Department	Name of the faculty Qualification IMR Number	Current Designation & Date of promotion	Nature of employment Regular/ permanent or contract/ outsourced	Details of Service in the last 5 years					Number of lectures taken/year, small teaching group with Topics covered
				2021	2022	2023	2024	2025	
Anatomy	Dr. Shalini Kumar MBBS, MD DMC/R/2263	Professor & Head 01.01.2024	Regular	Associate Professor HIMSR	Associate Professor HIMSR	Associate Professor HIMSR	Professor HIMSR	Professor HIMSR	Lectures -40 General Anatomy Embryology Neuroanatomy Head & Neck SGT -10/year
	Dr. Arpita Mahajan Rai MBBS, MD DMC/R/4476	Professor 01.01.2026	Regular	Assistant Professor HIMSR	Associate Professor HIMSR	Associate Professor HIMSR	Associate Professor HIMSR	Associate Professor HIMSR	Lectures- 60/year SGT-50/year Histology, Neuroanatomy Gross anatomy of Head & Neck
	Dr. Kusuma Harisha MBBS, MD 72440	Associate Professor 25.02.2026	Contractual	Assistant Professor, AIIMS, Delhi	Assistant Professor, AIIMS, Delhi	Assistant Professor, AIIMS, Delhi	Manav Rachna, Faridabad.	Assistant Professor, HIMSR	Lectures-40 (UG Lectures-Topic-Head & Neck Gross anatomy Topic-Histology -Female Reproductive system Topic-Genetics SGD-10 (Topics- Journal club, Seminar, Tutorials, Demonstrations)
	Dr. Mohammad Anas Khan MBBS, MD 51686	Assistant Professor	Contractual	Senior Resident ESI, PGIMSR, Basaidarapur, Delhi	Senior Resident HIMSR Assistant Professor HIMSR	Assistant Professor HIMSR	Assistant Professor HIMSR	Assistant Professor HIMSR	40 hrs. General Anatomy, Upper Limb, Abdomen, Pelvis and Perineum SGD-10

									(Topics- Journal club, Seminar, Tutorials, Demonstrations)
	Dr. Rizwana Farhat MBBS, MD 64608	Assistant Professor	Contractual	Senior Resident, ABVIMS & RML, New Delhi	Senior Resident, ABVIMS & RML, New Delhi Senior Resident, ESIC, Faridabad	Senior Resident, ESIC, Faridabad	Assistant Professor, HIMSR	Assistant Professor, HIMSR	40 per year General anatomy, Upper limb, Abdomen, Head and neck. SGD-10 (Topics- Journal club, Seminar, Tutorials, Demonstrations)
Physiology	Dr. Md. Iqbal Alam M.Sc., Ph.D	Professor & Head 06.12.2016	Regular	Professor HIMSR	Professor HIMSR	Professor HIMSR	Professor HIMSR	Professor HIMSR	1- Transport across cell membrane 2 – RMP (Resting Membrane Potential) 3 – Hemopoiesis & Erythropoiesis 4 – Immunity – I 5 – Immunity – II 6– Immunity – III 7 – Blood supply of & JGA 8 – Glomerulus 9 – Renal clearance 10– Reabsorption & Secretion 11 – Glucose reabsorption 12 – Reabsorption of inorganic substances 13– Renal handling of urea & uric acid 14 – Acidification of urine 15 – Water reabsorption 16 – ECFM & osmotic

									diuresis 17 – Micturition 18 – Acid–Base balance 19 – Acid–Base balance (continued) 20 – Respiratory compliance 21 – Introduction – CNS 22 – Reflex – Motor system 23 – Reflex – Properties & functions 24- Stretch Reflex 1 25 - Stretch Reflex 2 26- Motor Tracts, Extrapyramidal Tract 27 – Forebrain 28- Limbic System 29- Speech & Language 30 - Brain 31 -Temperature Regulation 32 -Sgt: Yoga 33 -Pft 34 - *Functional Anatomy Of Kidney & Blood Supply* 35 -Properties Of Cardiac Muscle 36 -Myopathies 37 -Excitation Contracting Coupling 38 -Nerve Muscle 39 -Plasma Proteins 40 -Resting Membrane Potential 41 -Neuro Muscular Junction

									42 -Haemoglobin 43 -Transport Across Membranes 44 -Introduction Of Gernal Physsiology 45 -Renal Function Test 46 -Classifiaction Of Reflex 47 -Breakdown Of Rbc 48 -Pathophysiology Of Shock 49 -Introduction To Blood 50 -Nerve Injuries 51 -Growth & Development 52 -Body Fluid Compartments 53 -Pacemaker Potential 54 -Leucoppiesis Platelets 55 -Blood Transfusion 56- Introduction To Female Reproductive System
	Dr. Shikha Gautam MBBS, MD DMC/R/1415	Professor 01.01.2025	Regular	Associate Professor HIMSR	Associate Professor HIMSR	Associate Professor HIMSR	Associate Professor HIMSR	Professor, HIMSR	1-Hemoglobin 2– Pathophysiology of Anaemia 3 – Megaloblastic Anaemia 5– Pathophysiology of Jaundice 6– Cardiac Cycle – I 7– Cardiac Cycle – II 8– Haemodynamics – I 9 – Haemodynamics – II 10– Mechanics of Respiration 11 – Pressure Changes in

									Respiration 12 – Lung Volumes & Capacities 13 – Ventilation–Perfusion Ratio 14- Respiratory Distress Syndrome 15 — Diffusion across Respiratory Membrane 16 -Introduction to Sensory Receptors 17— Properties of Sensory Receptors 18 — Properties of Synapse 29 — Somatosensory Cortex & Applied 20 — Pain 21— Analgesia System 22 — Ear-1: Functional Structure 23 — Ear-2: Middle & Inner Ear — 24 — Ear-3: Sound Perception 25 — Ear-4: Deafness & Auditory Tests 26 — Cardiorespiratory Changes in Exercise 27 -Aberrant sexual development 28 -Male reproductive system 29 -Temperature Regulation 30 -Sgt: Yoga 31 -Thyroid Hormone 32 -Pft

									33 -*Functional Anatomy Of Kidney & Blood Supply* 34 -Properties Of Cardiac Muscle 35 -Myopathies 36 -Excitation Contracting Coupling 37 -Nerve Muscle 38 -Plasma Proteins 39 -Neuro Muscular Junction 40 -Haemoglobin 41 - Introduction Of Gernal Physsiology 42 -Renal Function Test 43 -Classifiaction Of Reflex 44 -Breakdown Of Rbc 45 -Pathophysiology Of Shock 46-Ascending Tracts 47 -Introduction To Blood 48 -Body Fluid Compartments 49 -Pacemaker Potential 50 -Respiration –Deep Sea Diving 51 -Leucoppiesis Platelets 52 -Blood Transfusion 53-Introduction To Female Reproductive System
	Dr. Perveen Akhter MBBS, MD 63857	Associate Professor 17.01.2024	Contractual	-	-	Assistant Professor HIMSR	Associate Professor HIMSR	Associate Professor HIMSR	1 -Cell & intercellular communication 2 -Homeostasis 3 -Structure & functioning of nerve

									4 -Action potential 5 -Neuromuscular junction 6 -Neuromuscular disorders 7 -Cardiac output – I 8 -Cardiac output – II 9 -B.P. regulation – I 10 -B.P. regulation – II 11 -B.P. regulation (Applied) 12 -Cardiac cycle 13 -Regulation of cardiac output 14 -Non-respiratory functions of R.S. 15-Applied cardio-respiratory functions – II 16 -Kidney function – I 17 -Kidney function – II 18 -Kidney function – III 19 -Kidney function – IV 20 -Kidney function – V 21 -Kidney function – VI 22 -Aghin function – VI 23 -Vision – I 24-Vision – II 25 -Vision – III 26 -Vision – IV 27 -Vision – V 28 -Sgt: Yoga 29 -Thyroid Hormone 30 -Pft 31 -Functional Anatomy Of Kidney & Blood Supply 32 -Properties Of Cardiac Muscle

									33 -Myopathies 34 -Excitation Contracting Coupling 35 -Nerve Muscle 36 -Plasma Proteins 37 -Resting Membrane Potential 38 -Neuro Muscular Junction 39 -Haemoglobin 40 -Transport Across Membranes 41 -Introduction Of Gernal Physsiology 42 -Renal Function Test 43 -Classifiaction Of Reflex 44 -Breakdown Of Rbc 45 -Pathophysiology Of Shock 46 -Introduction To Blood 47 -Nerve Injuries 48 -Growth & Development 49 -Body Fluid Compartments 50 -Pacemaker Potential 51 -Respiration –Deep Sea Diving 52 -Leucoppiesis Platelets 53 -Blood Transfusion 54 -Introduction To Female Reproductive System
	Dr. Manvi Gupta MBBS, MD	Assistant Professor	Contractual	Senior Resident, MAMC	Senior Resident, MAMC	Senior Resident, MAMC	Senior Resident, MAMC	Assistant Professor, HIMSR	1 -Coagulation – 1 2 -Coagulation – 2 3 -Blood Group 4 -GIT – 1

	49452								5-GIT – 2 6 -GIT – 3 7 -GIT – 4 8 -GIT – 5
							Assistant Professor, HIMSR		9 -GIT – 6 10 -GIT – 7 11 -GIT – 8 12 -GIT – 9 13 -GIT – 10 14 -GIT – 11 15-GIT – 12 16 -Endocrine – 1 17 -Endocrine – 2 18 -Endocrine – 3 19 -Endocrine – 5 20 -Endocrine – 6 21 -Endocrine – 7 22 -Special Senses – Smell & Taste 23 -Female Reproductive 27 -System – 2 24 -Female Reproductive System – 3 25 -Female Reproductive System 26 -Female Reproductive System 27 -Vertical Integration class for Ophthalmology dept 28 -Temperature Regulation 29 -Sgt: Yoga 30 -Pft 31 -*Functional Anatomy Of Kidney & Blood Supply* 32 -Properties Of Cardiac

									Muscle 33 -Myopathies 34 -Excitation Contracting Coupling 35 -Nerve Muscle 36 -Plasma Proteins 37 -Neuro Muscular Junction 38 -Introduction Of Gernal Physsiology 39 -Classifiaction Of Reflex 40 -Breakdown Of Rbc 41 -Pathophysiology Of Shock 42 -Ascending Tracts 43 -Introduction To Blood 44 -Nerve Injuries 55 -Growth & Development 56 -Body Fluid Compartments 57 - Pacemaker Potential 58 -Respiration –Deep Sea Diving 59 -Leucoppiesis Platelets 60 -Blood Transfusion 61- Introduction To Female Reproductive System
	Dr. Aparaajita Bhatnaagar MBBS, MD 99551	Assistant Professor	Contractual	PG Student	Senior Resident, MAMC, New Delhi	Senior Resident, MAMC, New Delhi	Senior Resident, HIMSR	Senior Resident, HIMSR	-

	Dr. Sehar Mushtaq Kanyu MBBS, MD Case ID 496507	Assistant Professor	Contractual	Senior Resident, Oftord Medical College, Bangalore Assitant Professor, Oftord Medical College, Bangalore	Assitant Professor, Oftord Medical College, Bangalore Tutor, Arbian Gulf Univesity, Bahrain	Tutor, Arbian Gulf Univesity, Bahrain	Senior Resident, GMC, Anantnag Senior Resident, SKIMS, Bemina	Senior Resident, SKIMS, Bemina	-
Biochemistry	Dr. Jaspreet Kaur MBBS, MD 15396	Professor & Head	Contractual	Associate Professor, Noida International, Noida	Professor Noida International, Noida	Associate Professor NDMC & Hindu Rao Hospital, New Delhi	Professor, HIMSR	Professor, HIMSR	Total Theory hour taken (Didactic): 20 BC-2.1-2.5-(7) BC 2.1 – explain the fundamental concepts of enzymes, isoenzymes, co-enzymes. Enumerate the main classes of IUBMB nomenclature BC 2.2- describe and explain the basic principles of enzyme activity. BC 2.3- Describe and discuss enzyme inhibition and role of enzymes or drugs as inhibitors, and enzymes as therapeutic agents. BC 2.4- Describe and discuss the clinical utility of various serum enzymes in laboratory and their use as markers of various pathological conditions. BC 2.5- Interpret

									laboratory results of various enzymes in various disorders. Library assignment-(1) Poster discussion-(1) BC 3.1-Discuss and differentiate monosaccharides, disaccharides and polysaccharides with examples, their importance as energy fuel, structural elements, and storage molecules in the human body (4) Bc 7.1- Describe the integration of various metabolic processes in the body (carbohydrate, lipids and proteins)-(2) BC 7.2- Describe the biochemical processes involved in generation of energy in cells. (1) REVISION CLASSES-(4) SGD/ tutorials/ integrated learning/ practical/demonstration-157 hours ECE-9 hours

									AETCOM-7 hours SDL-10hours
	Dr. Sana Alam MBBS, MD 63970	Professor 01.01.2025	Regular	Assistant Professor HIMSR Associate Professor HIMSR	Associate Professor HIMSR	Associate Professor HIMSR	Associate Professor HIMSR	Associate Professor HIMSR	Total Theory hour taken (Didactic): 30 BC 5.1-Discuss briefly structure of amino acids and classify aminoacids on the basis of nutritional and metabolic significance (3) BC 5.2- Discuss classifications of proteins , Structural organization , functions and clinical aspects. (2) BC 5.3-Describe digestion and absorption of dietary proteins. (1) BC9.3- describe the processes involved in maintenance of normal pH , water and electrolyte balance of body fluids and the derangements associated with them. (4) Revision class –(2) Library assignment-(1) BC 10.1- describe nucleotides and nucleic acids and their clinical

									significance.(1) BC 10.2-Describe briefly the synthesis of purines in the body with special stress on salvage pathway.(1) BC 10.3-Describe the degradation of purines and its significance with associated disorders(1) BC4.2-4.8 – (7) BC4.2-Discuss the digestion and absorption of dietary lipids and their functions. BC4.3-Describe and discuss the fatty acid oxidation, metabolism of ketone bodies along with their clinical significance BC4.4-Describe metabolism of TG and cholesterol metabolism along with its regulation and clinical significance. BC4.5-Describe the metabolism of lipoproteins with brief overview of lipoprotein structure their interrelation and relation with atherosclerosis. BC4.6-Discuss biological role and therapeutic applications of eicosanoids and their inhibition.

									BC4.7-Describe fatty liver, cholelithiasis and obesity. BC4.8-Interpret laboratory result of analytes associated with metabolism of lipids. BC 8.1-describe the biochemical role of vitamins in the body and explain the manifestations of their deficiency. (3) BC8.2- discuss the importance of various dietary components (4) SGD/ tutorials/ integrated learning/ practical/demonstration-157 hours ECE-9 hours AETCOM-7 hours SDL-10hours
	Dr. Kailash Chandra M.Sc. Ph.D	Associate Professor 10.01.2024	Regular	Assistant Professor HIMSR	Assistant Professor HIMSR	Assistant Professor HIMSR	Associate Professor HIMSR	Associate Professor HIMSR	Total Theory hour taken (Didactic): 30 BC 10.4-*Describe in brief the major steps involved in Replication, Transcription, and Translation* (4) BC10.5-*Describe the types of DNA repair, gene*

									mutations, and associated disorders (1) BC10.6-*Describe the basic mechanism of regulation of gene expression* in cells (2) BC10.7-Describe applications of molecular technologies like recombinant DNA technology and PCR in the diagnosis and treatment of diseases. Briefly dicuss microarray, FISH ,CRISPER(2) BC8.2-8.6(2) BC8.2- Discuss the importance of various dietary components and explain the importance of dietary fibre. BC8.3-Describe the types and causes of protein energy malnutrition and its effects. BC8.4-P*rovide dietary advice for optimal health in childhood and adulthood in disease conditions like diabetes mellitus, coronary artery disease and pregnancy*.

									BC8.5-Describe the causes (including dietary habits), effects and health risks associated with being overweight/obese and metabolic syndrome BC8.6-Summarize the nutritional importance of commonly used food items including fruits and vegetables (macro-molecules & their importance) REVISION CLASSES-(3) BC 3.3-3.6 (7) BC 3.3- Define and briefly describe the pathways of carbohydrate metabolism and their regulation BC3.4-Describe and discuss the regulation, functions and integration of minor carbohydrate metabolism pathways briefly along with associated disorders. BC3.5-Discuss the mechanism and significance of blood glucose regulation (glucose homeostasis) in

									health and disease. Describe the types, biochemical changes, complications and laboratory investigations related to diabetes and other carbohydrate metal disorder. BC3.6-Interpret the results of analytes associated with carbohydrate metabolism and other laboratory investigations related to disorders of carbohydrate metabolism. BC7.2-Describe the biochemical processes involved in the generation of energy in cells(4) BC 13.1-13.2-(5) BC13.1- describe oncogenesis,oncogenes& its activation with focus on p53 & apoptosis. BC13.2- Describe various iochemical tumor markers and the biochemical basis of cancer therapy. SGD/ tutorials/ integrated learning/ practical/demonstration-

									157 hours ECE-9 hours AETCOM-7 hours SDL-10hours
	Dr. Bhumika Upadhyay M.Sc. Ph.D	Assistant Professor 02.05.2022	Regular	Demonstrator HIMSR	Demonstrator HIMSR Assistant Professor HIMSR	Assistant Professor HIMSR	Assistant Professor HIMSR	Assistant Professor HIMSR	Total Theory hour taken (Didactic): 28 BC 1.1- Describe the molecular and functional organization of cell and its sub cellular components and functions of biological membranes(1) BC 5.8-describe the structure and functions of haem in body and describe the processes involved in the metabolism with emphasis on jaundice and describe porphyrin ,metabolism (2) BC 5.9 – describe the major types of hemoglobin and its type , derivatives & varaints found in the body and their physiological / pathological relevance (2) BC 5.6- describe the

									formation, transport , detoxification of ammonia, ammonia toxicity and its clinical significance (3) BC 5.7- Describe the specialized products formed from the amino acids Glycine, Phenylalanine, Tyrosine, Tryptophan, and Methionine, branched-chain amino acids and Arginine and the inborn errors associated with them. Discuss newborn screening.(3) BC4.1-Describe and discuss the main classes of lipids and their functions (2) BC4.2-Describe the digestion and absorption of dietary lipids and its associated disorders.(1) BC4.6-Discuss biological role and therapeutic applications of eicosanoids and their inhibitors.(2) BC11.1-*Describe the function tests of kidney, liver, thyroid and adrenal*

									glands and their clinical significance. Interpret the function tests report. (2) BC 9.1-Describe the dietary sources, absorption, transport, metabolism, and biochemical functions of iron, calcium, and copper with their associated clinical disorders.(2) BC 9.2-Discuss magnesium, zinc, and phosphorus along with their clinical significance and the functions of trace elements(1) BC 12.1: *Describe the role of xenobiotics in health and disease.(1)* BC 12.2: *Describe the antioxidant defense systems in the body.(1)* BC 10.1- BC 10.1: *Describe nucleotides and nucleic acids and their clinical significance.* (2) BC13.5-Describe the role of Artificial Intelligence (AI) in clinical biochemistry laboratory

									practices.(1) BC13.3- Discuss briefly on HIV and biochemical changes in AIDS. (2) SGD/ tutorials/ integrated learning/ practical/demonstration- 157 hours ECE-9 hours AETCOM-7 hours SDL-10hours
	Dr. Huda Naaz MBBS, MD DMC/R/22262	Assistant Professor	Contractual	-	Senior resident VMMC and Safdarjung Hospital	Senior resident VMMC and Safdarjung Hospital	Senior resident VMMC and Safdarjung Hospital	Senior resident VMMC and Safdarjung Hospital Assistant Professor, HIMSR	-
Pharmacology	Dr. Tanveer Ahmad Khan MBBS, MD 108208	Professor & Head	Contractual	Professor, Govt. Medical College, Rajnandgaon Chhattisgarh	Professor, Govt. Medical College, Rajnandgaon, Chhattisgarh	Professor HIMSR	Professor HIMSR	Professor HIMSR	Number of lectures in 2025 = 16 + 10 = 26 Topics covered: Diuretics and antidiuretics, Renin-Angiotensin system & its Inhibitors, Cardiovascular pharmacology, General anesthetics,

									Local anesthetics Batch 2023 14/01/2025-Antianginal drugs-I 15/01/2025- Antianginal drugs-II 28/01/2025- Antianginal drugs-Iii 29/01/2025- RAAS 07/02/2025- Anti Hypertensive Drugs-I 14/02/2025- Anti Hypertensive Drugs-II 19/02/2025- Anti Hypertensive Drugs-III 21/02/2025- Treatment of Heart Failure-1 25/02/2025- Treatment of Heart Failure-2 28/02/2025- Treatment of Heart Failure-3 05/03/2025- Anti-Arrhythmic Drug-I 07/03/2025- Anti-Arrhythmic Drug-II 11/03/2025- Diuretic Drugs-I 12/03/2025- Diuretics & antidiuretics-II 17/06/2025-PH.1.17-Local Anaesthetic agents 20/06/2025-PH1.18-General Anaesthetic agents Batch 2024

									28/11/2025- PH4.5 Explain types, salient pharmacokinetics, pharmacodynamics, therapeutic uses, adverse drug reactions of Diuretics, antidiuretics vasopressin and analogues 03/12/2025- PH4.5 Explain types, salient pharmacokinetics, pharmacodynamics, therapeutic uses, adverse drug reactions of Diuretics, antidiuretics vasopressin and analogues 04/12/2025- PH4.6 Explain salient pharmacokinetics, pharmacodynamics, therapeutic uses, adverse drug reactions of drugs Modulating renin angiotensin aldosterone system. 10/12/2025- PH4.7 Explain types, salient pharmacokinetics, pharmacodynamics, therapeutic uses, adverse drug reactions of drugs used for the management of

									hypertension 11/12/2025- PH4.7 Explain types, salient pharmacokinetics, pharmacodynamics, therapeutic uses, adverse drug reactions of drugs used for the management of hypertension 16/12/2025-PH4.8 Describe types, salient pharmacokinetics, pharmacodynamics, therapeutic uses, adverse drug reactions of drugs used for the management of ischemic heart disease (stable, unstable angina and myocardial infarction), peripheral vascular disease and devise management plan for a patient of acute myocardial Infarction 17/12/2025-PH4.8 Describe types, salient pharmacokinetics, pharmacodynamics, therapeutic uses, adverse drug reactions of drugs used for the management of ischemic

									heart disease (stable, unstable angina and myocardial infarction), peripheral vascular disease and devise management plan for a patient of acute myocardial Infarction 18/12/2025-PH4.9 Explain salient pharmacokinetics, pharmacodynamics, therapeutic uses, adverse drug reactions of drugs used for the management of heart failure. Devise management plan for heart failure patients and describe the strategies to prevent long term complications of heart failure. 19/12/2025-PH4.9 Explain salient pharmacokinetics, pharmacodynamics, therapeutic uses, adverse drug reactions of drugs used for the management of heart failure. Devise management plan for heart failure patients and describe the strategies to prevent long term complications of heart failure.

									31/12/2025-PH4.10 Explain salient pharmacokinetics, pharmacodynamics, therapeutic uses, adverse drug reactions of drugs used for cardiac arrhythmias. Devise a plan to manage a patient with supraventricular, ventricular arrhythmias, cardiac arrest and fibrillations. SGDs : 4 • CNS Stimulants • Anti- Cancer Drugs • Antiepileptic Drugs • Ethanol and Methanol Practicals = 6 + 7 = 13 Batch 2023 06/02/2025- Batch A: PH3.3 Perform a critical evaluation of drug promotional literature 13/02/2025- Batch A: PH3.3 Perform a critical evaluation of drug promotional literature 19/02/2025- Batch A: PH3.3 Perform a critical

									evaluation of drug promotional literature 20/02/2025- Batch A: PH3.3 Perform a critical evaluation of drug promotional literature 27/02/2025- Batch A: PH3.3 Perform a critical evaluation of drug promotional literature 05/03/2025- Batch A: PH3.3 Perform a critical evaluation of drug promotional literature Batch 2024 01/10/2025-PH1.3 Batch A: Drug Nomenclature 08/10/2025- PH1.3 Batch A: Drug Nomenclature Revision 09/10/2025-PH1.3 Batch B: Drug Nomenclature 13/11/2025-PH 1.4 Batch A: Describe various routes of drug administration, their advantages and disadvantages, e.g. SC, IV, IM, SL Administration of tablets, rectal, spinal, sublingual, Intranasal sprays and lozenges

									19/11/2025-PH 1.4 Batch B: Describe various routes of drug administration, their advantages and disadvantages, e.g. SC, IV, IM, SL Administration of tablets, rectal, spinal, sublingual, Intranasal sprays and lozenges 18/12/2025-PH1.12 Batch B: Define Pharmacovigilance its principles and demonstrate ADR reporting 31/12/2025PH1.12 Batch A: Define Pharmacovigilance its principles and demonstrate ADR reporting
	Dr. Razi Ahmad MBBS, MD 76715	Professor 11.02.2017	Regular	Professor HIMSR	Professor HIMSR	Professor HIMSR	Professor HIMSR	Professor HIMSR	Number of lectures: 10 Endocrine pharmacology Drugs acting on: Hypothalamus and pituitary Thyroid and antithyroid Diabetes mellitus (type 1, 2) Corticosteroid Male and female sex hormones.

									Contraceptive pills. Drugs affecting calcium balance and treatment of osteoporosis.
	Dr. Nusrat Nabi MBBS, MD 81883	Associate Professor 10.01.2024	Regular	Assistant Professor HIMSR	Assistant Professor HIMSR	Assistant Professor HIMSR	Associate Professor HIMSR	Associate Professor HIMSR	Lectures: 16 SGDs: 55 Practicals: 25 Topics Covered: Antimicrobial Agents (14) Central Nervous System (2)
	Dr. Sana Rehman MBBS, MD 57163	Associate Professor 01.01.2025	Regular	Assistant Professor HIMSR	Assistant Professor HIMSR	Assistant Professor HIMSR	Assistant Professor HIMSR	Associate Professor HIMSR	Lectures-11 SGD-31 Practicals-53 Topics- Autonomic Nervous System, Central Nervous System, Drugs Acting on Blood, Drugs acting on Respiratory System
	Dr. Shreshth Khanna MBBS, MD 73700	Assistant Professor	Contractual	Senior Resident, MAMC, New Delhi	Senior Resident, MAMC, New Delhi Assistant Professor HIMSR	Assistant Professor HIMSR	Assistant Professor HIMSR	Assistant Professor HIMSR	General Pharmacology- 7 Autacoids – 5
	Dr. Shrishti MBBS, MD DMC/R/17848	Assistant Professor	Contractual	Post Graduate	Post Graduate	Post Graduate	Senior Resident, Adesh Medical College, Ambala	Senior Resident, Adesh Medical College, Ambala	-

							Mohri	Assistant Professor, Adesh Medical College, Ambala	
Pathology	Dr. Sabina Khan MBBS, MD 51549	Professor & Head 22.06.2020	Regular	Professor HIMSR	Professor HIMSR	Professor HIMSR	Professor HIMSR	Professor HIMSR	PA: 2.1 L(I): Demonstrate knowledge of the causes, mechanisms, types and effects of cell injury and their clinical significance. DOAP PA.2.3 & Slide:, Fatty liver, Hyaline Degeneration. PA: 6.1 L: Define and classify neoplasia. Describe the characteristics of neoplasia including gross, microscopy, biologic, behaviour and spread. Differentiate between Benign from Malignant neoplasm. PA:6.2L(I): Describe the molecular basis of cancer. PA 6.3 L Define & classify carcinogens. describe the process of different types of carcinogens. PA:6.4 L: Describe the effects of tumour on the host including paraneoplastic syndrome, A 18.2 (L): Describe the etiology genetics pathogenesis classification features

									hematologic features of acute leukemia. PA 18.2 (L): Describe the etiology genetics pathogenesis classification features & hematologic features of chronic leukemia
	Dr. Sujata Basu Jetley MBBS, MD 46412	Professor 09.11.2012	Regular	Professor HIMSR	Professor HIMSR	Professor HIMSR	Professor HIMSR	Professor HIMSR	PA 1.2 L Enumerate common definitions and terms used in Pathology.Describe the history and evolution of Pathology PA:2.2 L: Describe the etiology of cell injury. Distinguish between reversible-irreversible injury: mechanisms; morphology of cell injury. PA 2.4 L(I): Describe and discuss Cell death- types, mechanisms, necrosis, ,autolysis PA: 2.7 L: Describe and discuss the mechanisms of cellular aging and apoptosis(basic as contrast with necrosis) 2.6 SGD: Describe and discuss cellular adaptations: atrophy, hypertrophy, hyperplasia, metaplasia, dysplasia, PA 2.4 : DOAP Slide: Caseous Necrosis, Coagulative Necrosis. PA 18.2 (L): Describe the

									etiology genetics pathogenesis classification features hematologic features of acute leukemia
	Dr. Zeeba Shamim Jairajpuri MBBS, DMRD, MD 30182	Professor 01.01.2022	Regular	Associate Professor HIMSR	Professor HIMSR	Professor HIMSR	Professor HIMSR	Professor HIMSR	PA 1.1(L): Describe the role of a pathologist in diagnosis and management of disease. PA:3.1 L(I): Define and describe the general features of acute inflammation including stimuli, vascular and cellular events A:3.2 L: Enumerate and describe the mediators of acute inflammation PA1.3:Practical Introduction, Histotechnics, Identification of cells:, Microscope PA:19.4 L Describe and discuss the pathogenesis, pathology and the differentiating features of Hodgkin's lymphoma & non -Hodgkin's lymphoma

	Dr. Safia Rana MBBS, DCP, DNB 11480	Professor 12.03.2024	Regular	Associate Professor HIMSR	Associate Professor HIMSR	Associate Professor HIMSR	Professor HIMSR	Professor HIMSR	PA: 5.4.2 L: Define and describe the etiopathogenesis and consequences of thrombosis. PA:5.5 L: Demonstrate knowledge of the causes ,types and effects of embolism and the clinical significance PA 2.6 ; DOAP Slides - Metaplasia, dysplasia DOAP PA 2.5 Slide: Monckeberg's Calcification, PA-20.3 L: Define Describe the laboratory finding of multiple myeloma.
	Dr. Shaan Khetrapal MBBS, MD 33984	Professor 01.01.2026	Regular	Assistant Professor HIMSR	Associate Professor HIMSR	Associate Professor HIMSR	Associate Professor HIMSR	Associate Professor HIMSR	PA:8.1 L : Describe the principles and mechanisms involved in immunity. PA:8.3 L Describe the HLA system and the immune principles involved in transplant and mechanism of transplant rejection. PA: 8.2 L: Describe the mechanism of hypersensitivity reactions. PA: 8.4 Lecture Define and describe autoimmunity. Enumerate autoimmune disorders. PA:20.1 L:

									Classify and describe the etiology, pathogenesis and pathology of vascular and platelet disorders including ITP& Hemophillia
	Dr. Nehal Ahmad MBBS, MD 39924	Associate Professor 21.11.2022	Regular	Assistant Professor HIMSR	Assistant Professor HIMSR Associate Professor HIMSR	Associate Professor HIMSR	Associate Professor HIMSR	Associate Professor HIMSR	PA: 8.2 L: Describe the mechanism of hypersensitivity reactions. PA: 8.6 :L: Define and describe the pathogenesis and pathology of HIV and AIDS. PA 16.1 (L): Define and classify hemolytic anemia describe the pathogenesis and clinical features and haematological indices of hemolytic anemia PA 16.3(L): Describe the ideology pathogenesis hematological analysis and peripheral blood picture of acquired hemolytic anemia PA:9.1L: Describe the pathogenesis and pathology of amyloidosis
	Dr Fatima Khan MBBS,MD 79389	Assistant Professor	Contractual	Post Graduate Senior Resident, KGMU Lucknow	Senior Resident, KGMU Lucknow	Senior Resident, KGMU Lucknow Assistant Professor, Rama Medical	Assistant Professor, Rama Medical College Hapur	Asssistant Professor, HIMSR	PA:11.1 L: Describe pathogenesis, features of common cytogenetic abnormality & mutations in childhood(N) PA:11.3 L: Describe pathogenesis of common storage disorders in infancy and childhood(N). PA:SGD 10.4 Define and

						College Hapur			describe the pathogenesis and pathology of common bacterial, viral, protozoal and helminthic diseases. PA:11.3 L: Describe pathogenesis of common storage disorders in infancy and childhood(N) PA:12.1 SGD(IL) Enumerate and describe the pathogenesis of disorders caused by air pollution, tobacco and alcohol. PA 13.1 SGD: Describe hematopoiesis and extramedullary hematopoiesis
	Dr. Saba Naaz MBBS, MD DMC/R/18836	Assistant Professor	Contractual	Post Graduate	Post Graduate Senior Resident, VMMC, New Delhi	Senior Resident, VMMC, New Delhi	Senior Resident, VMMC, New Delhi	Senior Resident, VMMC, New Delhi Assistant Professor, HIMSR	PA 14.1 (L): Describe iron metabolism. Describe the etiology, investigation and differential diagnosis of microcytic hypochromic anemia PA 15.4 SGD: Enumerate the differences and describe the distinguishing features of megaloblastic and non-megaloblastic macrocytic anemia. PA:13.4 &15.2DOAP:Perform WBC Count Identify and describe the peripheral smear in Macrocytic anemia, Certifiable skill

									SLIDE: SICKLE CELL ANEMIA
	Dr. Tanvi Jha MBBS, MD DMC/R/18695	Assistant Professor	Contractual	PG Student	PG Student	Senior Resident, Dr. RML Hospital, New Delhi	Senior Resident, Dr. RML Hospital, New Delhi	Senior Resident, Dr. RML Hospital, New Delhi	-
	Dr. Neeti Nagar MBBS, MD 93626	Assistant Professor	Contractual	PG Student Senior Resident, VMMC, New Delhi	Senior Resident, VMMC, New Delhi	Senior Resident, VMMC, New Delhi	Senior Resident, VMMC, New Delhi PDCC Fellowship, ILBS, Vasant Kunj, New Delhi.	PDCC Fellowship, ILBS, Vasant Kunj, New Delhi.	-
Microbiology	Dr. Rachna Tewari MBBS, MD 78988	Professor & Head	Contractual	-	-	Professor HIMSR	Professor HIMSR	Professor HIMSR	Lectures taken: 20 and practicals taken: 35 Topics of lectures from: General Microbiology, Immunology, Hospital Infection Control, Infections of CVS, Bloodstream, GIT, Hepatobiliary system, CNS, Respiratory system, Skin and soft tissue, Infections of Genito-urinary tract, Miscellaneous.
	Dr. Neetu Shree MBBS, MD 41176	Associate Professor 21.11.2022	Regular	Assistant Professor HIMSR	Assistant Professor HIMSR	Assistant Professor HIMSR	Associate Professor HIMSR	Associate Professor HIMSR	MBBS Lectures: > 20/year SGD: > 35/year Topics: General Microbiology

					Associate Professor HIMSR				Immunology Antimicrobials Hospital infection Control Bacterial genetics Bacterial identification, pathogenesis, lab diagnosis, treatment & resistance mechanisms Viral identification, pathogenesis, lab diagnosis, treatment & resistance mechanisms Fungal identification, pathogenesis, lab diagnosis, treatment & resistance mechanisms Parasitic identification, pathogenesis, lab diagnosis, treatment & resistance mechanisms Infective syndromes
	Dr. Jayanthi G MBBS, MD 72699	Associate Professor	Contractual	Associate Consultant, Narayana Super-specialty Hospital, Gurugram.	Assistant Professor, ESIC Medical College, Faridabad	Assistant Professor, ESIC Medical College, Faridabad	Assistant Professor, ESIC, Faridabad Assistant Professor, PGICH, Noida Associate Professor, HIMSR	Associate Professor, HIMSR	-
	Dr. Ayan Kumar Das MSc. Ph.D	Assistant Professor	Regular	Demonstrator HIMSR	Demonstrator HIMSR	Assistant Professor HIMSR	Assistant Professor HIMSR	Assistant Professor HIMSR	Lectures taken: 21 SGDs and practical taken: 25 Topics of lectures from: GIT, Hepatobiliary

					Assistant Professor HIMSR				system, CNS, Respiratory system, Skin and soft tissue, Infections of Genito-urinary tract, Miscellaneous, AETCOM General Microbiology, Immunology, Hospital Infection Control, Infections of CVS, Bloodstream, Topics of SGD: Malaria, Diarrheagenic E.coli, Lab diagnosis of viral hepatitis, Lab diagnosis of staphylococcal and streptococcal infections, superficial and subcutaneous fungal infections, gram staining of sputum samples, stool microscopySpecimen collection & transport, Gram staining (3), AST, Normal microbial flora, Acid fast staining (3) , Hand hygiene and PPE, Biomedical waste, systemic mycoses and candidiasis, Lab diagnosis of dysentery,
	Dr. Sulmaz Rishi MBBS, MD DMC/R/26974	Assistant Professor	Contractual	Senior Resident, GIPMER, New Delhi	Senior Resident, GIPMER, New Delhi	Senior Resident, GIPMER, New Delhi Assistant Professor, GIPMER, New Delhi	Assistant Professor, GIPMER, New Delhi Assistant Professor, HIMSR	Assistant Professor, HIMSR	-

	Dr. Iram Rafique Abidin MBBS, MD 91498	Assistant Professor	Contractual	Senior Resident, COVID–19 Hospital, Ambedkar Nagar. Senior Resident, MAMC, New Delhi Professor, SGT, Gurugram	Senior Resident, MAMC, New Delhi	Senior Resident, MAMC, New Delhi	Senior Resident, MAMC, New Delhi	Assistant Professor, HIMSR	-
Forensic Medicine	Dr. Rakesh Kumar Mishra MBBS, MD 17237	Professor	Contractual	Assistant Professor, ALFSMSR, Faridabad	Assistant Professor, VIMS, Gajraula Associate Professor, VIMS, Gajraula	Associate Professor, VIMS, Gajraula	Associate Professor, VIMS, Gajraula	Associate Professor, VIMS, Gajraula Professor, VIMS, Gajraula	-
	Dr. Sabina Bashir MBBS, MD Case ID 168106	Assistant Professor	Contractual	Senior Resident, SKIMs, Srinagar	Senior Resident, SKIMs, Srinagar	Senior Resident, SKIMs, Srinagar	Senior Resident, SKIMs, Srinagar	Assistant Professor, MMC, Bihar	-
Community Medicine	Dr. Farzana Islam MBBS, MD 67520	Professor & Head 22.06.2020	Regular	Professor HIMSR	Professor HIMSR	Professor HIMSR	Professor HIMSR	Professor HIMSR	Theory Lecture: 31 Hours Practical Classes: 39 Hours Describe and discuss the epidemiological and control measures including the use of essential laboratory tests at the primary care level Soil Transmitted

									Helminthiases-Lecture Health program evaluation, Contraception: Hormonal methods, Medical abortion , Individual Vaccines in NIS. Cold chain & AEFI, Nutrition basics: RDA, Food pyramid, food toxicity, Food safety, fortification, supplementation
	Dr. Aqsa Shaikh MBBS, MD 66477	Professor 17.01.2024	Regular	Associate Professor HIMSR	Associate Professor HIMSR	Associate Professor HIMSR	Professor HIMSR	Professor HIMSR	Theory Lecture: 25 Hours Practical Classes: 61 Hours Logistic Management Planning Immunization Services , AETCOM: The Primacy of confidentiality in patient care, Describe the principles of management of information systems, Describe the newborn, child component of RMNCAH+N, Describe the Demographic profile of India and discuss its impact on health, Epidemiology
	Dr. Richa Gautam MBBS, MD DMC/R/6804	Associate Professor 07.02.2026	Regular	Senior Resident, LHMC, New Delhi	Assistant Professor HIMSR	Assistant Professor HIMSR	Assistant Professor HIMSR	Assistant Professor HIMSR	Theory Lecture: 39 Hours Practical Classes: 66 Hours Epidemiological Studies-2(Cohort,Experimental),

				Assistant Professor HIMSR					ANC,PNC,Neonate,Under-5 case, Disease surveillance IDSP, Introduction to immunization, National Immunization Schedule, Emerging and Re-emerging infections, Water Purification.
	Dr. Asma Aftab MBBS, MD 110038	Assistant Professor	Contractual	PG Student	PG Student	PG Student Senior Resident, HIMSR	Senior Resident, HIMSR	Senior Resident, HIMSR	-
	Dr. Mukesh Kumar MBBS, MD, DNB DMC/R/11881	Assistant Professor	Contractual	Assistant Professor, ACMS, Delhi	Grade Specialist, ACMS, Delhi	Grade Specialist, ACMS, Delhi	Grade Specialist, ACMS, Delhi	Grade Specialist, ACMS, Delhi	-
	Dr. Urmala B MBBS, MD Case ID 513960	Assistant Professor	Contractual	-	PG Student	PG Student	PG Student	PG Student Senior Resident, LTMM College, Mumbai	
	Dr. Azhar Uddin M.Sc. Ph.D	Statistician cum Assistant Professor	Contractual	Tutor, ICMR-RMR Center, Bhubaneswar	Assistant Professor, ICMR-NIMR, New Delhi.	Assistant Professor, ICMR-Victor Control Research Center, Puducherry	Assistant Professor, HIMSR	Assistant Professor, HIMSR	Theory Lecture: 0 Hours Practical Classes: 39 Hours Biostatistics: Type of data,Collection of data,Presentation of data(Computer Class), Measurement of Central Tendency, Measurement

									of Dispersion, Parametric Test, Non-Parametric Test(Computer Class), Measurement of Central Tendency,Measurement of Dispersion, Sampling Methods.Parametric Test, Non-Parametric Test(Computer Class).
General Medicine	Dr. Mohammad Anwar Habib MBBS, MD 9377	Professor & Head 01.01.2022	Regular	Associate Professor HIMSR	Professor HIMSR	Professor HIMSR	Professor HIMSR	Professor HIMSR	Theory Lecture : 15 Hours Practical Classes : 28 Hours DVT and Pulmonary Embolism, treatment of ARF, Renal replacement therapy, different type of meningitis, Parkinson's syndrome, pathophysiology, stabilization, HIV related malignancies , arrhythmias, epidemiology and pathogenesis and risk factors, rheumatologic diseases, aetiology of CRF, metabolic acidosis, risk of opportunistic infections, HIV-AIDS including specific tests of HIV, atrial fibrillation
	Dr. Vineet Jain MBBS, MD DMC/R/3987	Professor 01.01.2022	Regular	Associate Professor HIMSR	Professor HIMSR	Professor HIMSR	Professor HIMSR	Professor HIMSR	Theory Lecture : 15 Hours Practical Classes : 56 Hours Dyslipidaemia, priorities

									in the management of ARF, various kinds of headache, Rheumatoid Arthritis, osteoporosis in the elderly, metabolic alkalosis, pulse oximetry, ABG, Chest Radiograph, hyperbilirubinemia,encephalopathy,CSF fluid analysis,causes of join pain,CKD glycemia and hypertension, pathophysiology and manifestations
	Dr. Smita Suneet Manjavkar MBBS, MD 79268	Professor	Contractual	Professor, SGT Medical College, Gurugram	Professor, SGT Medical College, Gurugram	Professor, SGT Medical College, Gurugram	Professor, SGT Medical College, Gurugram	Professor, SGT Medical College, Gurugram Professor, HIMSR	-
	Dr. Afreen Mushtaq Ahmad Khan MBBS, MD 60727	Professor 01.01.2026	Regular	Assistant Professor HIMSR	Associate Professor HIMSR	Associate Professor HIMSR	Associate Professor HIMSR	Associate Professor HIMSR	Theory Lecture : 12 Hours Practical Classes : 56 Hours PTCA and CABG, therapy in CKD including, Motor neurm disease, Muscular dystrophies, COPD in the elderly, management of reactive arthritis,respiratory acidosis,hyperparathyroidism, Chest radiograph, Drugs used to prevent HIV,hepatitis,R Vs L heart failure,

	Dr. Mohammadd Ashraf Khan MBBS, MD 51963	Associate Professor 12.03.2024	Regular	Assistant Professor HIMSR	Assistant Professor HIMSR	Assistant Professor HIMSR	Assistant Professor HIMSR Associate Professor HIMSR	Associate Professor HIMSR	Theory Lecture : 16 Hours Practical Classes : 56 Hours ACE inhibitors, aetiology of CRF, Chronic Kidney Disease, renal replacement therapy, Prion Disease, poly-neuropathy, Gilliam bare syndrome (AIDP), rehabilitation of CVA, hypercalcemia, hypokalaemia, CBC, Urine routine,CDC criteria,pathophysiology, CKD, Malaria
	Dr. Arvind Kumar MBBS, MD DMC/R/10021	Associate Professor 21.05-2026	Regular	Senior Resident, LHMC, New Delhi Assistant Professor HIMSR	Assistant Professor HIMSR	Assistant Professor HIMSR	Assistant Professor HIMSR	Assistant Professor HIMSR	Theory Lecture : 18 Hours Practical Classes : 84 Hours History and outcomes, treatment of renal failure, Glomerular disease particularly, cerebrovascular accident, complications and cause of death for common cancers, etiopathogenesis, rehabilitation of depression, hypernatremia and hyponatremia,obesity,heat stroke,pneumonia,influenza vaccines,endocarditis, diabetic ketoacidosis,anti-snake venom, Parkinson's

									syndrome, CNS disease, diagnosis, underlying acid based disorder, proteinuria in CKD, aetiology of anemia, caloric requirements during illnesses
	Dr. Bilal Ahmad Wani MBBS, MD, DrNB (Medical Gastroenterology) 73406	Assistant Professor	Contractual	DrNB Gastroentero logy	DrNB Gastroenterolog y	Assistant Professor HIMSR	Assistant Professor HIMSR	Assistant Professor HIMSR	Theory Lecture : 10 Hours Practical Classes : 20 Hours Dyslipidemia in the pathogenesis of atherosclerosis, Tubule intestinal disease of kidney, hepatorenal syndrome and hepatic encephalopathy, cholelithiasis and cholecystitis,
	Dr. Mohammed Sheeraz Alam MBBS, MD, DM Cardiology 52623	Assistant Professor	Contractual	Specialist 'A' Masafi Hospital, Ministry of Health UAE	Specialist 'A' Masafi Hospital, Ministry of Health UAE	DM Cardiology, JNMC, AMU, Aligarh	DM Cardiology, JNMC, AMU, Aligarh	Assistant Professor, HIMSR	-
	Dr. Talib Manzoor Khan MBBS, MD 105694	Assistant Professor	Contractual	Senior Resident, SKIMS, Srinagar	Senior Resident, SKIMS, Srinagar	Persuing DrNB Nephrololgy, PSRI, New Delhi	Persuing DrNB Nephrololgy, PSRI, New Delhi	Assistant Professor, HIMSR	-
	Dr. Luqman Hafeez	Assistant Professor	Contractual	Post Graduate	Post Graduate	Senior Resident, MMMC &	Assistant Professor, SIMS, Hapur	Senior Resident, HIMSR	-

	MBBS, MD DMC/R/16054				Senior Resident, MMMC & Hospital, Solan	Hospital, Solan	Senior Resident, HIMSR	Assistant Professor, HIMSR	
	Dr. Shazia Umar MBBS, MD 89818	Assistant Professor	Contractual	-	Post Graduate	Post Graduate	Post Graduate	Senior Resident, HIMSR	-
	Dr. Shaik Irfan Basha MBBS, MD DMC/R/31746	Assistant Professor	Contractual	PG Student	PG Student	PG Student Senior Resident, HIMSR	Senior Resident, HIMSR	Senior Resident, HIMSR	-
Respiratory Medicine	Dr. Sumeera Banday MBBS, MD 63061	Professor & Head 12.03.2024	Regular	Assistant Professor HIMSR Associate Professor HIMSR	Associate Professor HIMSR	Associate Professor HIMSR	Associate Professor HIMSR Professor, HIMSR	Professor, HIMSR	Theory Lectures : 13 Hours Practical Clasess : 08 Hours 1. Recognize The Impact Of Oad On Patients Quality Of Life , Wellbeing, Work And Family 2. Discuss Epidemiology , Clinical Features, Types, Mode Of Transmission, Pathogenesis, Natural History Complications Of Ptb & Eptb [Including Ln/ Bone & Cns] 3. Discuss Various Diagnostic Tool For Tuberculosis 4. Describe And Discuss The Principle And

									Use Of Oxygen Therapy In Hospital And At Home. 5. Counsel The Patient With Asthma On Correct Use Of Inhalers In A Simulated Environment 6. Pulmonary Tuberculosis. Manifestations, Diagnosis & Treatment. 7. Drug Resistant Tuberculosis. 8. Tb In Special Situations. 9. Bronchial Asthma 10. Sarcoidosis 11. Occupational Lung Disease 12. Bronchieactasis & Lung Abscess. 13. Introduction To Tuberculosis
	Dr. Mohd. Afaque MBBS, DNB 83435	Assistant Professor	Contractual	PG Student	PG Student Senior Resident, HIMSR	Senior Resident, HIMSR	Senior Resident, HIMSR	Senior Resident, HIMSR	-
Dermatology	Dr. Mukesh Manjhi MBBS, MD DMC/R/5242	Professor & Head 12.03.2024	Regular	Assistant Professor HIMSR Associate Professor HIMSR	Associate Professor HIMSR	Associate Professor HIMSR	Associate Professor HIMSR Professor HIMSR	Professor HIMSR	14 lectures SGT: 3 Sexually transmitted diseases prevention, SLE, Skin Tumours

	Dr. Shafia Nisar Kakroo MBBS, MD 78887	Associate Professor 12.03.2024	Regular	Assistant Professor HIMSR	Assistant Professor HIMSR	Assistant Professor HIMSR	Assistant Professor HIMSR Associate Professor HIMSR	Associate Professor HIMSR	14 SGT: 2 Eczema, geriatric skin problems,
	Dr. MD. Ashraf Jamal MBBS, MD 86299	Assistant Professor	Contractual	Senior Resident HIMSR	Senior Resident HIMSR Assistant Professor HIMSR	Assistant Professor HIMSR	Assistant Professor HIMSR	Assistant Professor HIMSR	12 SGT: 2 Scabies, cutaneous disease in diabetes, thyroid disorders
Psychiatry	Dr. Manjeet Singh Bhatia MBBS, MD DMC/6423	Professor & Head	Contractual	Professor UCMS, New Delhi	Professor UCMS, New Delhi	Professor UCMS, New Delhi	Professor HIMSR	Professor HIMSR	Mood disorders Anxiety disorder Psychosexual disorders Sleep disorders Geriatric Psychiatry Childhood psychiatric disorders Psychopharmacology
	Dr. Nimmi A Jose MBBS, MD DMC/R/5472	Professor 12.03.2024	Regular	Assistant Professor SGT Medical College, Gurugram Associate Professor HIMSR	Associate Professor HIMSR	Associate Professor HIMSR	Associate Professor HIMSR Professor HIMSR	Professor HIMSR	1.Organic psychiatric disorders 2. psychotic vs non psychotic disorders 3.Magnitude, etiology and treatment of depression 4.Anxiety disorders 5.Stress related disorders 6.Personality disorders 7.Psychotherapeutics 8. Mental health laws in India
	Dr. Bushra Zahoor MBBS, MD	Assistant Professor	Contractual	Senior Resident LHMC, New Delhi	Senior Resident LHMC, New Delhi	Senior Resident LHMC, New Delhi	Assistant Professor HIMSR	Assistant Professor HIMSR	1.Treatment of stress related disorders 2.Management of personality disorders

	DMC/R/19060					Assistant Professor HIMSR			3.Psychiatric disorders in childhood & adolescents 4.Psychiatric emergencies 5.Legal & ethical issues in Psychiatry
	Dr. Sandeep Sekhon MBBS, MD	Assistant Professor	Contractual	-	-	Seenior Resident, HIMSR	Seenior Resident, HIMSR	Seenior Resident, HIMSR	-
Paediatrics	Dr. Varinder Singh MBBS, MD 5252	Professor & Head	Contractual	Professor, LHMC, New Delhi	Professor, LHMC, New Delhi	Professor, LHMC, New Delhi	Professor, LHMC, New Delhi	Professor, HIMSR	-
	Dr. Afreen Khan MBBS, MD 53734	Professor 14.09.2026	Regular	Assistant Professor HIMSR	Assistant Professor HIMSR	Assistant Professor HIMSR Associate Professor HIMSR	Associate Professor HIMSR	Associate Professor HIMSR	34 with 105 topics being covere5 Discuss the causes and approach to a child with scholastic backwardness Discuss the etiology, clinical features, diagnosis and management of a child with learning disabilities Discuss the objectives and functions of AFHS (Adolescent Friendly Health Services) and the referral criteria Enumerate the importance of obesity and other NCD in adolescents Enumerate the prevalence and the importance of recognition of sexual drug abuse in adolescents and

									children Discuss the etiopathogenesis, clinical features and management of a child who fails to thrive Discuss the RDA, dietary sources of Vitamin D and its role in health and disease Describe the causes, clinical features, diagnosis and management of vitamin D deficiency (VDD)/ excess (Rickets & Hypervitaminosis D Discuss the RDA, dietary sources of vitamin C and their role in health and disease Describe the causes, clinical features, diagnosis and management of deficiency of vitamin C (scurvy) Describe the clinical features, diagnosis and management of pica Discuss the etiology, clinical features and management of enuresis Discuss the etiology, clinical features and management of

									Encopresis. Discuss the RDA, dietary sources of Vitamin B and its role in health and disease Describe the causes, clinical features, diagnosis and management of deficiency of B complex vitamins Discuss the RDA, dietary sources of vitamin C and their role in health and disease Describe the causes, clinical features, diagnosis and management of deficiency of vitamin C (scurvy) Discuss the fluid and electrolyte requirement in health and disease Discuss the clinical features and complications of fluid and electrolyte imbalance and outline the management Discuss the etiology, clinical features and management of neonatal sepsis Discuss the etiopathogenesis, clinical presentation and management of Acute

									Rheumatic Fever in children Enumerate the indications of Upper GI endoscopy Discuss the prevention of Hep B infection – Universal precautions and Immunization Discuss the etiopathogenesis, clinical features and management of Nasopharyngitis Discuss the etiopathogenesis of Pharyngotonsillitis Discuss the clinical features and management of Pharyngotonsillitis Discuss the cause of thrombocytopenia in children: describe the clinical features and management of idiopathic Thrombocytopenic Purpura Discuss the etiology, classification, pathogenesis and clinical features of Hemophilia in children. Discuss the cause of thrombocytopenia in children: describe the clinical features and management of idiopathic

									Thrombocytopenic Purpura Discuss the etiology, classification, pathogenesis and clinical features of Hemophilia in children. Describe the etio-pathogenesis clinical features, management of Hypothyroidism in children Discuss the etio-pathogenesis, clinical types, presentations, complication and management of Diabetes mellitus in children Define, Enumerate and Discuss the causes of developmental delay and disability including intellectual disability in children Discuss the approach to a child with developmental delay Discuss the etiology, clinical features, diagnosis and management of a child with Attention Deficit Hyperactivity Disorder (ADHD)

									Discuss etiology, clinical features, diagnosis and management of a child with autism Enumerate the importance of obesity and other NCD in adolescents Enumerate the prevalence and the importance of recognition of sexual drug abuse in adolescents and children Discuss the RDA, dietary sources of vitamin C and their role in health and disease Describe the causes, clinical features, diagnosis and management of deficiency of vitamin C (scurvy) Discuss the RDA, dietary sources of Iodine and its role in Health and disease Describe the causes, diagnosis and management of deficiency of Iodine Identify the clinical features of Iodine deficiency disorders Discuss the National Goiter Control program

									and its recommendations Explain the components of the Universal Immunization Program (UIP) and the National Immunization Program (NIP) Explain the epidemiology of vaccine preventable diseases (VPDs) Vaccine description with regard to classification of vaccines, strain used, dose, route, schedule, risks benefits and side effects, indications and contraindications Define cold chain and discuss the methods of safe storage and handling of vaccines Discuss immunization in special situations – HIV positive children, immunodeficiency, pre-term, organ transplants, those who received blood and blood products, splenectomised children, adolescents, and travellers Discuss the etiology, clinical features and management of Neonatal hypoglycaemia

									Discuss the etiology, clinical features and management of Neonatal hypocalcemia. Enumerate the etio-pathogenesis, clinical features, complications and management of Acute Renal Failure in children Enumerate the etio-pathogenesis, clinical features, complications and management of Chronic Renal Failure in Children Enumerate the etiopathogenesis, clinical features, complications and management of Urinary Tract infection (UTI) in children Discuss the etiopathogenesis, clinical features and management of Infective endocarditis in children Discuss the etiopathogenesis, clinical features and management of chronic liver diseases in children Discuss the etiopathogenesis, clinical features and management of Portal Hypertension in

									children Discuss oxygen therapy, in Pediatric emergencies and modes of administration Explain the need and process of triage of sick children brought to health facility Discuss the etio-pathogenesis, classification, clinical features, complication and management of Hydrocephalus in children Discuss the etio-pathogenesis, classification, clinical features, and management of Microcephaly in children Discuss the genetic basis, risk factors, complications, prenatal diagnosis, management and genetic counselling in Down's Syndrome Discuss the genetic basis, risk factors, clinical features, complications, prenatal diagnosis, management and genetic counselling in Turner's Syndrome

									Discuss the referral criteria and multidisciplinary approach to management of Turner Syndrome Topic: Endocrinology Enumerate the common causes of fever and discuss the etiopathogenesis, clinical features, complications and management of fever in children Topic:Vaccine preventable Diseases - Tuberculosis Describe the clinical features, diagnosis and management of thumb sucking Discuss the RDA, dietary sources of Vitamin A and their role in health and disease Describe the causes, clinical Features, diagnosis and management of Deficiency/ Excess of Vitamin A Discuss the Vitamin A Prophylaxis program and their Recommendations Explain the term implied consent in Immunization

									services Enumerate available newer vaccines and their indications including pentavalent pneumococcal, rotavirus, JE, typhoid IPV & HPV Discuss immunization in special situations – HIV positive children, immunodeficiency, pre-term, organ transplants, those who received blood and blood products, splenectomies children, adolescents, and travelers Discuss the etiology, clinical features and management of Neonatal hyperbilirubinemia. Identify clinical presentations of common surgical conditions in the newborn including TEF, esophageal atresia, anal atresia, cleft lip and palate, congenital diaphragmatic hernia and causes of acute abdomen. Define, Enumerate and Discuss the causes of developmental delay and disability including intellectual disability in

									children Discuss the approach to a child with developmental delay Discuss the etiology, clinical features, diagnosis and management of a child with Attention Deficit Hyperactivity Disorder (ADHD) Discuss etiology, clinical features, diagnosis and management of a child with autism Enumerate the importance of obesity and other NCD in adolescents Enumerate the prevalence and the importance of recognition of sexual drug abuse in adolescents and children Discuss the RDA, dietary sources of vitamin C and their role in health and disease Describe the causes, clinical features, diagnosis and management of deficiency of vitamin C (scurvy)

									Discuss the RDA, dietary sources of Iodine and its role in Health and disease Describe the causes, diagnosis and management of deficiency of Iodine Identify the clinical features of Iodine deficiency disorders Discuss the National Goiter Control program and its recommendations Explain the components of the Universal Immunization Program (UIP) and the National Immunization Program (NIP) Explain the epidemiology of vaccine preventable diseases (VPDs) Vaccine description with regard to classification of vaccines, strain used, dose, route, schedule, risks benefits and side effects, indications and contraindications Define cold chain and discuss the methods of safe storage and handling of vaccines Discuss immunization in special situations – HIV positive children,

									immunodeficiency, pre-term, organ transplants, those who received blood and blood products, splenectomised children, adolescents, and travellers Discuss the etiology, clinical features and management of Neonatal hypoglycaemia Discuss the etiology, clinical features and management of Neonatal hypocalcemia. Enumerate the etio-pathogenesis, clinical features, complications and management of Acute Renal Failure in children Enumerate the etio-pathogenesis, clinical features, complications and management of Chronic Renal Failure in Children Enumerate the etiopathogenesis, clinical features, complications and management of Urinary Tract infection (UTI) in children Discuss the etiopathogenesis, clinical features and management

									of Infective endocarditis in children Discuss the etiopathogenesis, clinical features and management of chronic liver diseases in children Discuss the etiopathogenesis, clinical features and management of Portal Hypertension in children Discuss oxygen therapy, in Pediatric emergencies and modes of administration Explain the need and process of triage of sick children brought to health facility Discuss the etio-pathogenesis, classification, clinical features, complication and management of Hydrocephalus in children Discuss the etio-pathogenesis, classification, clinical features, and management of Microcephaly in children Discuss the genetic basis, risk factors,

									complications, prenatal diagnosis, management and genetic counselling in Down's Syndrome Discuss the genetic basis, risk factors, clinical features, complications, prenatal diagnosis, management and genetic counselling in Turner's Syndrome Discuss the referral criteria and multidisciplinary approach to management of Turner Syndrome Topic: Endocrinology Enumerate the common causes of fever and discuss the etiopathogenesis, clinical features, complications and management of fever in children Topic:Vaccine preventable Diseases - Tuberculosis
	Dr. Mohd Ayub Ansari MBBS, MD 60646	Associate Professor 21.11.2025	Contractual	Assistant Professor HIMSR	Assistant Professor HIMSR	Assistant Professor HIMSR	Assistant Professor HIMSR	Assistant Professor HIMSR	MBBS 2021: 9 Lectures along with clinical ward posting. MBBS 2022: 5 Lectures along with clinical ward posting.

								Associate Professor HIMSR	MBBS 2023: 5 Lectures along with clinical ward posting. MBBS 2021 Enumerate the etiopathogenesis, clinical features, complications and management of chronic kidney disease in children. Discuss the Hemodynamic changes, clinical presentation, complications and management of Cyanotic Heart Diseases – Fallot Physiology Discuss the causes, clinical presentation and management of persistent diarrhea in children Discuss the causes, clinical presentation and management of chronic diarrhea in children. Discuss the causes, clinical presentation and management of dysentery in children Describe the etiopathogenesis, clinical approach and management of Status epilepticus Describe the etiopathogenesis, clinical approach and

									management of an unconscious child Discuss oxygen therapy, in Pediatric emergencies and modes of administration Explain the need and process of triage of sick children brought to health facility Discuss the etio-pathogenesis, clinical features, classification and approach to a child with anaemia Discuss the etiopathogenesis, clinical features and management of iron deficiency anemia Define epilepsy. Discuss the pathogenesis, clinical types, presentation and management of Epilepsy in children. Define status Epilepticus. Discuss the clinical presentation and management. MBBS 2022 Discuss the RDA, dietary sources of Vitamin D and its role in health and disease Describe the causes, clinical features, diagnosis and management of vitamin D

									deficiency (VDD)/ excess (Rickets & Hypervitaminosis D) Discuss the role of screening for Vitamin D deficiency Define the common neonatal nomenclatures including the classification and describe the characteristics of a Normal Term Neonate and High Risk Neonate Explain the care of a normal Neonate Discuss the referral criteria for children with developmental delay Discuss the RDA, dietary sources of Iron and their role in health and disease Describe the causes, diagnosis and management of Iron deficiency MBBS 2023 Outline the clinical approach to a child with SAM and MAM Enumerate the role of locally prepared therapeutic diets and ready to use therapeutic diets Discuss the risk approach

									for obesity and Discuss the prevention strategies Discuss the referral criteria for children with developmental delay Discuss the etiopathogenesis, clinical presentation and multidisciplinary approach in the management of cerebral palsy Define Adolescence and stages of adolescence Describe the physical, physiological and psychological changes during adolescence (Puberty)
	Dr. Sana Salim Khan MBBS, MD 75864	Associate Professor 10.06.2026	Regular	Assistant Professor HIMSR	Assistant Professor HIMSR	Assistant Professor HIMSR	Assistant Professor HIMSR	Assistant Professor HIMSR	2021 BATCH -10 1.Discuss the approach and referral criteria to a child with hematuria 2.Discuss the etiopathogenesis, classification, clinical presentation and management of diarrheal diseases in 3.Children. Describe the etiopathogenesis, clinical approach and management of Status epilepticus.Describe the etiopathogenesis, clinical approach and management of an

									unconscious child 4.Discuss the common causes, clinical presentation,medico-legal implications Of abuse. List the common causes of morbidity and mortality in the under five children 5.Discuss the etiology, clinical presentation and management of Acute Lymphoblastic Leukemia in children Discuss the etiology,clinical presentation and management of lymphoma in children. 6.Enumerate the common causes of fever and discuss the epp ,clinical features,complicationsd and management of fever in children. Discuss epp,clinical features and management-measles,mumps,rubella, chicken pox, diphtheria, pertussis and tetanus 2022 BATCH -8 1.Describe the clinical features diagnosis & management of breath holding spells Describe clinical features

									diagnosis & management of temper tantrums 2.Describe the age related nutritional needs of infants, children & adolescents Describe tools and methods of assessment & classification of nutritional status of infants & children. 3.Discuss the fluid and electrolyte requirement in health and disease Discuss the clinical features and complications of fluid and electrolyte imbalance and outline the management 4.Discuss the etiology, clinical features and management of Birth asphyxia Discuss the etiology, clinical features and management of neonatal seizures. 2023 BATCH -9 1.Discuss the role of child guidance clinic in children with behavioural problems and the referral

									criteria Visit to Child Guidance Clinic and observe functioning 2.Awareness on the cultural beliefs and practice of breastfeeding Explain the physiology of lactation. Describe the composition and types of breast milk and discuss the difference between cow's milk and human milk Explain the physiology of lactation. 3.Describe the age-related nutritional needs of infants, children and adolescents including micronutrients and vitamins. Describe the tools and methods for assessment and classification of nutritional status of infants, children and adolescents. Explains the calorific value of common Indian foods 4.Define the term Complementary Feeding Discuss the principles, the initiation, attributes,

									frequency, technique and hygiene related to complementary feeding including IYCF Enumerate the common complementary foods 5.Discuss the RDA, dietary sources of Vitamin E and its role in health and disease Describe the causes, clinical features, diagnosis and management of deficiency of Vitamin E Discuss the RDA, dietary sources of Vitamin K and their role in health and disease Describe the causes, clinical features, diagnosis management & prevention of deficiency of Vitamin K 6.Discuss the RDA, dietary sources of Iodine and its role in Health and disease Describe the causes, diagnosis and management of deficiency of Iodine Identify the clinical features of Iodine deficiency disorders 7.Discuss the fluid and electrolyte requirement in health and disease

									Discuss the clinical features and complications of fluid and electrolyte imbalance and outline
	Dr. Lucky Manik MBBS, DCH, DNB 78097	Assistant Professor	Contractual	Senior Resident, ESI, PGIMSR, Basaidarapu, New Delhi.	Senior Resident, ESI, PGIMSR, Basaidarapur, New Delhi. Assistant Professor, HIMSR	Assistant Professor HIMSR	Assistant Professor HIMSR	Assistant Professor HIMSR	Enumerate the etiopathogenesis, clinical features, complications and management of acute poststreptococcal Glomerular Nephritis in children Describe the etiopathogenesis, grading, clinical features and management of hypertension in children Discuss the etiopathogenesis, clinical features and management of Infective endocarditis in children Discuss the etiopathogenesis, clinical features and management of Portal Hypertension in children Monitoring and maintaining temperature: define hypothermia. Describe the clinical features, complications and management of Hypothermia Describe the advantages and correct method of keeping an infant warm

									by skin to skin contact Describe the environmental measures to maintain temperature Discuss the etiopathogenesis, clinical features and management of Vitamin B-12, Folate deficiency anemia Discuss the etio-pathogenesis, clinical features , complications, management and prevention of meningitis in children Distinguish bacterial, viral and tuberculous meningitis Enumerate the causes of floppiness in an infant and discuss the clinical features, differential diagnosis and managemen t Discuss the etio-pathogenesis, clinical features, management and prevention of Poliomyelitis in children Discuss the etio-pathogenesis, clinical types, presentations, management and prevention of childhood

									Asthma Describe the etio-pathogenesis, management and prevention of Allergic Rhinitis in Children Describe the etio-pathogenesis, clinical features and management of Atopic dermatitis in Children Discuss the etio-pathogenesis, clinical features and complications and management of Urticaria Angioedema Describe the age-related nutritional needs of infants, children and adolescents including micronutrients and vitamins, Describe the tools and methods for assessment and classification of nutritional status of infants, children and adolescents Explains the calorific value of common Indian foods Discuss the Vitamin A

									prophylaxis program and their Recommendations Discuss the role of screening for Vitamin D deficiency Describe the causes, clinical features, diagnosis and management of excess Hypervitaminosis D. Discuss the RDA, dietary sources of Calcium and its role in health and disease Discuss the RDA, dietary sources of Magnesium and their role in health and disease Describe the causes, clinical features, diagnosis and management of Magnesium Deficiency Describe the causes, clinical features, diagnosis and management of Calcium Deficiency Discuss the risk factors, clinical features, diagnosis and management of Kerosene poisoning Discuss the risk factors, clinical features, diagnosis and management of Lead Poisoning

									Define the term Complementary Feeding Discuss the principles, the initiation, attributes, frequency, technique and hygiene related to complementary feeding including IYCF Enumerate the common complimentary foods Discuss the etiology, clinical features, diagnosis and management of a child with Attention Deficit Hyperactivity Disorder (ADHD) Discuss etiology, clinical features, diagnosis and management of a child with autism Discuss the eticlogy, clinical features and management of enuresis. Discuss the etiology, clinical features and management of Encopresis. Discuss the temperature regulation in neonates, clinical features and management of Neonatal

									Hypothermia Discuss the etiology, clinical features and management of Neonatal hypoglycemia Discuss the etiology, clinical features and management of Neonatal hypocalcemia. Explain the components of Integrated Management of Neonatal and Childhood Illnesses (IMNCI) guidelines and method of Risk stratification Discuss the causes and approach to a child with scholastic backwardness Discuss the etiology, clinical features, diagnosis and management of a child with learning disabilities

	Dr Iqra Khan MBBS.MD, DNB DMC/R/19254	Assistant Professor	Contractual	Senior Resident, ESI, Basaidarapur , Delhi	Senior Resident, ESI, Basaidarapur, Delhi	Fellow-developmental pediatrics, Latika roy foundation Dehradun	Senior Resident, Dr. RML, Hospital, New Delhi	Assistant Professor, HIMSR	2-Diarrhea Anthropometry Discuss the etiology, clinical features, diagnosis and management of a child with learning disabilities Discuss the etiology, clinical features, diagnosis and management of a child with Attention Deficit Hyperactivity Disorder (ADHD Discuss etiology, clinical features, diagnosis and management of a child with autism Discuss role of child guidance clinic with behavioural problems Discuss the etioogy,clinical features and management of borth injuries,hemorrhagic disease of newborn and low birth weight Discuss etilogyy ,clinical features and managemet of cerebral palsy Analyse the outcome the utcomes and appraise the Monitoring and evaluationof NHM
							Assistant Professor, HIMSR		

	Dr. Kaifi Siddiqui MBBS, DCH, DNB, DM 52880	Assistant Professor	Contractual	Assistant Professor, HIMSR	Assistant Professor, HIMSR	DM Neonatology	DM Neonatology	DM Neonatology	-
	Dr. Rajat Sagar MBBS, MD 108098	Assistant Professor	Contractual	PG Student	PG Student	Senior Resident, LHMC, New Delhi	Senior Resident, LHMC, New Delhi	Senior Resident, LHMC, New Delhi	-
General Surgery	Dr. Ajay Kumar Thakral MBBS, MS 24837	Professor & Head 11.08.2020	Regular	Professor HIMSR	Professor HIMSR	Professor HIMSR	Professor HIMSR	Professor HIMSR	35 to 40/year Lectures, small group teaching, seminar, clinical teaching, Lectures/SGD 1. Describe the clinical features and management of acute pancreatitis. 2. Describe the clinical features, Investigations and principles of management tumours of the liver 3. Revision on Liver 4. Revision on Biliary system 5. Revision on Pancreas 6. Minimally invasive General Surgery:

									Describe indications advantages and disadvantages of Minimally invasive General Surgery 7. Describe and the use of appropriate instruments in Surgery in general. 8. Describe the applied anatomy of adrenal glands 9. Describe the etiology, clinical features of disorders of adrenal gland 10. Describe principles of management of liver trauma. 11. Describe Aseptic techniques, sterilization and disinfection. 12. Approach to a patient of acute pancreatitis. 13. Discuss the clinical features, investigations and principles of management of liver trauma 14. Discuss various scoring systems of

									acute pancreatitis. 15. Approach to a patient with lump in Right hypochondrium 16. Discuss the etiopathogenesis, clinical features and principles of management of gall stone disease 17. Describe Aseptic techniques, sterilization and disinfection. 18. Describe Surgical approaches, incisions and the use of appropriate instruments in Surgery in general. 19. Discuss the etiopathogenesis, clinical features and principles of management of gall stone disease 20. Describe Surgical approaches, incisions and the use of appropriate instruments in Surgery in general.

									Skills Lab Class 1. Basic suturing (I) 2. Incision and drainage of superficial abscess (I) 3. Wound bandaging(I) 4. Wound Care(I) Clinical Class 1. Examination of the right upper quadrant lump. 2. Case of bleeding pr 3. Examination of RIF lump 4. Examination of a scrotal swelling. 5. Examination of a breast swelling. 6. Examination of thyroid swelling 7. Examination of a pelvic mass.
	Dr. Musharraf Husain MBBS, MS, DNB 51335	Professor & Dean 29.11.2015	Regular	Professor HIMSR	Professor HIMSR	Professor HIMSR	Professor HIMSR	Professor HIMSR	15-20 lectures/year, small group teaching, seminar, clinical teaching, Lectures/SGD 1. Describe the of thyroid malignancy management 2. Describe the aetiology, clinical features, and investigations of Carcinoma stomach 3. Describe the

									principles of management of Carcinoma stomach 4. Describe the aetiology, clinical features, and investigations of Carcinoma stomach 5. Describe and discuss the methods of estimation and replacement of the fluid and electrolyte requirements in the surgical patient 6. Describe and discuss the methods of estimation and replacement of the fluid and electrolyte requirements in the surgical patient 7. Discuss Medico-legal issues in surgical practice 8. Describe and discuss the methods of estimation and replacement of the fluid and electrolyte requirements in the surgical patient 9. Discuss Medico-legal issues in surgical practice Clinical Class 1. Examination of

									varicose veins 2. Examination of an ulcer 3. Examination of an epigastric lump. 4. Examination of superficial swelling 5. Examination of a inguinal hernia 6. Examination of a acute abdomen Skills Lab Class 1. Basic suturing (I) 2. Incision and drainage of superficial abscess (I) 3. Wound bandaging(I) 4. Wound Care(I)
	Dr. Divya Prasad MBBS, MS 58897	Professor 01.01.2025	Regular	Assistant Professor HIMSR Associate Professor HIMSR	Associate Professor HIMSR	Associate Professor HIMSR	Associate Professor HIMSR	Professor HIMSR	35-40 lectures/year Lectures/SGD 1. Describe the etiopathogenesis, clinical features and principles of management of benign breast disease including infections of the breast. 2. Describe the etiopathogenesis, clinical features, Investigations and principles of treatment of phylloid breast and paget's disease

									3. Describe pathophysiology, clinical features, Investigations and principles of management of ventral (except incisional) Hernias 4. Describe Splenomegaly, hypersplenism and indications of splenectomy. Describe post-splenectomy sepsis, prophylaxis 5. Describe the clinical features, investigations and principles of management of bile duct injuries and biliary strictures 6. Describe the etiology, clinical features, investigations and principles of management of perianal abscess and fistula in ano 7. Describe the applied anatomy clinical features, investigations and principles of management of scrotal abscess and Fournier's gangrene

									8. Describe the clinical features, investigations and principles of management of carcinoma of rectum and anal canal 9. Elaborate the principles of treatment of carcinoma breast. 10. Describe pathophysiology, clinical features, Investigations and principles of management of incisional Hernias 11. Enumerate the causes and consequences of malnutrition in the surgical patient 12. Describe the pathogenesis, clinical features and management of various cutaneous and subcutaneous infections. 13. Describe the applied anatomy and physiology of thyroid 14. Describe the etiopathogenesis of thyroid swellings (Benign) 15. Describe the clinical features, classification and principles of

									management of thyroid cancer 16. Discuss the management of locally advanced and metastatic carcinoma breast. 17. Approach to patient with Gynaecomastia 18. Discuss various types of breast surgeries 19. Counsel the patient and obtain informed consent for treatment of malignant conditions of the breast 20. Discuss clinical features, investigations and principles of management of choledocholithiasis 21. Approach to a patient with bleeding per rectum 22. Discuss the applied anatomy clinical features, investigations and principles of management of epidydimo-orchitis and torsion testis 23. Describe the clinical features, classification and principles of

									management of thyroid cancer 24. Describe the pathogenesis, clinical features and management of various cutaneous and subcutaneous infections. (Revision) 25. Describe the clinical features, classification and principles of management of thyroid cancer (Revision) 26. Counsel patients and family/ friends for blood transfusion and blood donation. 27. Biological basis for early detection of cancer and multidisciplinary approach in management of cancer 28. Discuss clinical features, investigations and principles of management of choledocholithiasis 29. Approach to a patient with bleeding per rectum 30. Describe the pathogenesis, clinical features and management of

									various cutaneous and subcutaneous infections. 31. Describe the pathogenesis, clinical features and management of various cutaneous and subcutaneous infections. Skills Lab Class 1. Basic suturing (I) 2. Incision and drainage of superficial abscess (I) 3. Wound bandaging(I) 4. Wound Care(I) Clinical Class 1. Examination of the right upper quadrant lump. 2. Case of bleeding pr 3. Examination of RIF lump 4. Examination of a scrotal swelling. 5. Examination of a breast swelling.
	Dr. Mohammad Mohsin MBBS, MS 9378	Professor 01.01.2026	Regular	Associate Professor, HIMSR	Associate Professor, HIMSR	Associate Professor, HIMSR	Associate Professor, HIMSR	Associate Professor, HIMSR	-

	Dr. Tajamul Rashid MBBS, MS, FMAS 60077	Associate Professor 01.01.2025	Regular	Assistant Professor HIMSR	Assistant Professor HIMSR	Assistant Professor HIMSR	Assistant Professor HIMSR	Associate Professor HIMSR	35-40 lectures/year Lectures/SGD 1. Describe the principles of management of disorders of adrenal gland 2. Describe the etiology and clinical features, principles of investigation and management of adrenal tumors 3. Describe investigations, principles of management of Peptic ulcer disease and sequelae of peptic ulcer surgeries 4. Describe pathophysiology, clinical features, Investigations and principles of management of Inguinal Hernias 5. Describe the applied anatomy and physiology and investigations of stomach 6. Discuss the approach to a patient with gastric outlet obstruction

									7. Discuss the etiology and clinical features of Peptic ulcer disease. 8. Approach to a patient with haematemesis and malaena 9. Revision on Oesophagus Stomach Liver 10.Discuss the nutritional requirements of surgical patients, the methods of providing nutritional support and their complications 11. Describe etiopathogenesis of oral cancer; symptoms and signs of oropharyngeal cancer. Enumerate the appropriate investigations and discuss the principles of treatment of orophrayngeal cancer 12.Describe and discuss the methods of estimation and replacement of the fluid and electrolyte requirements in the surgical patient (Revision) 13. Describe basic concepts of

									perioperative care 14. Discuss the principles and steps of clinical research in General Surgery 15. Describe the principles of management of disorders of adrenal gland. 16. Describe the etiology and clinical features, principles of investigation and management of adrenal tumors. 17. Describe investigations, principles of management of Peptic ulcer disease and sequelae of peptic ulcer surgeries. 18. discuss the applied anatomy of adrenal glands, approach to a patient of phaeochromocytoma 19. Revise and discuss the applied anatomy of adrenal glands 20. Approach to a patient of phaeochromocytoma. 21. Describe pathophysiology, clinical features, Investigations and

									principles of management of Inguinal Hernias 22. Describe the applied anatomy and physiology and investigations of stomach. 23. Discuss the approach to a patient with gastric outlet obstruction 24. Discuss the etiology and clinical features of Peptic ulcer disease. 25. Approach to a patient with haematemesis and malaena 26. Approach to a patient with retention of urine Skills Lab Class 1. Basic suturing (I) 2. Early management of trauma (I) and trauma life support (D) 3. Basic bandaging (I) 4. Incision and drainage of superficial abscess (I) 5. Wound Care(I) Clinical Class 1.Hernia examination 2. Examination of thyroid swelling 3. Examination of a pelvic mass.

									4. Examination of varicose veins
	Dr. Vijender Verma MBBS, MS DMC/R/6082	Assistant Professor	Contractual	-	-	Assistant Professor HIMSR	Assistant Professor HIMSR	Assistant Professor HIMSR	35-40 lectures/year Lectures/SGD 1. Describe the applied anatomy and physiology of thyroid 2. Describe the etiopathogenesis of thyroidal swellings 3. Describe causes, clinical features, complications and principles of managament of peritonitis 4. Describe the applied anatomy and investigations of the biliary system 5. Describe the predispositions, clinical features, investigations and principles of management of carcinoma gall bladder 6. Describe pathophysiology, clinical features, investigations and principles of management of abdominal tuberculosis 7. Discuss the

									symptomatology and investigations of disorders of the urinary tract (2) 8. Discuss urogenital tuberculosis 9. Describe and demonstrate the clinical examination of surgical patient including swelling and order relevant investigation for diagnosis. Describe and discuss appropriate treatment plan. 10. Describe the Planning and conduct of Surgical audit 11. Discuss the symptomatology and investigations of disorders of the urinary tract (2) 12. Describe causes, clinical features, complications and principles of managament of peritonitis. 13. Describe the applied anatomy and investigations of the biliary system. 14. Describe the predispositions, clinical features,

									investigations and principles of management of carcinoma gall bladder. 15. Describe the clinical features, investigations and principles of management of congenital anomalies of genitourinary system. 16. Describe the etiology, clinical features, investigations and principles of management of carcinoma prostate. Skills Lab Class 1. Basic bandaging (I) 2. Basic suturing (I) 3. Basic wound care Clinical Class 1. Examination of the right upper quadrant lump. 2. Case of bleeding pr 3. Examination of RIF lump 4. Examination of a scrotal swelling. 5. Examination of a breast swelling. 6. Examination of thyroid swelling

									7. Examination of a pelvic mass.
	Dr. Sonali Ohri MBBS, MS 99064	Assistant Professor	Contractual	-	Senior Resident, HIMSR	Senior Resident, HIMSR Assistant Professor HIMSR	Assistant Professor HIMSR	Assistant Professor HIMSR	25- to 30 / year. Lectures/SGD 1. Describe the etiology and clinical features of thyroid malignancy 2. Describe the clinical features and management of chronic pancreatitis 3. Describe the clinical features, investigations and principles of management of GORD, hiatus hernia 4. Describe the clinical features, investigations and principles of management of neoplasms of appendix 5. Describe applied anatomy of breast. 6. Approach to a patient with mastalgia and nipple discharge 7. Outline the role of surgery in the management of coronary heart disease, valvular heart

									diseases and congenital heart diseases 8. Discuss the clinical features of mediastinal diseases and the principles of management 9. Discuss cholecystectomy and its complications 10. Discuss congenital anomalies of gall bladder and choledochal cyst 11. Describe the immunological basis of organ transplantation 12. Discuss the Principles of immunosuppressive therapy. Enumerate indications, describe surgical principles, management of organ transplantation 13. Discuss cholecystectomy and its complications 14. Discuss congenital anomalies of gall bladder and choledochal cyst 15. Describe the materials and methods used for surgical wound closure and

									anastomosis (sutures, knots and needles) 16. Describe the etiology and clinical features of thyroid malignancy Skills Lab Classes 1. Basic wound care 2. Incision and drainage of superficial abscess (I) 3. Basic suturing (I) 4. Wound Care(I) 5. Wound bandaging(I) Clinical Class 1. Case of bleeding pr 2. Examination of RIF lump 3. Examination of a scrotal swelling. 4. Examination of a breast swelling. 5. Examination of thyroid swelling
	Dr. Syed Mohammad Salman MBBS, MS DMC/R/22031	Assistant Professor	Contractual	-	-	Senior Resident, HIMSR	Senior Resident, HIMSR	Assistant Professor, HIMSR	-
